VOLUME LXIII

HOULTON, MAINE, WEDNESDAY OCTOBER 17, 1923

NUMBER FORTY TWO

COUNTRY CLUB ELECTS OFFICERS

Work on Building the Links is Progressing Very Satisfactorily

A largely attended meeting of the Houlton Country Club was held at the Library of the Court House and the club is now legally organized and incorporated.

The constitution and by-laws were adopted and the following officers were elected:

President, William B. Gibson; Secretary, Walter B. Clark; Treasurer, Simeon L. White.

The following Board of Governors was chosen:

For three years: J. A. Browne, W. B. Gibson, F. W. Mitchell, S. L. White. For two years: Frank P. Clark, J. R. Harvey, R. M. Lawlis, J. C. Madigan. For one year: W. B. Clark, Chas. H. Pogg, Geo. S. Gentle, A. G. Munro.

There are a number of different kinds of membership and while each is limited there is opportunity for those who are interested to become members until the limit of each class is filled.

Work on the links in New Limerick is progressing well with a large crew of men, John Patton has his crew and teams there and the work is being done under the supervision of Mr. Stinson of the St. Andrews N. B. course. The fairways are all ploughed and ready for seed in the spring and about half of the greens are done ready for seeding also in the spring so that as soon as the snow disappears the ground will be seeded and without doubt this will be the most beautiful course in Maine from a scenic standpoint as well as a fine course to play on will be ready to use by the middle of the season which when completed will be a great addition to the physical as well as the social life of the town. The opportunities for improving the grounds with its surroundings is unlimited and with the men who are interested and are putting in their time it will be more than was anticipated.

Alton Carroll who is employed in Bethel, Me., is at home for a few days with his parents.

Rev. A. M. Thompson occupied the pulpit of the Congregational Church in Millinocket Sunday.

Services at the Methodist church were largely attended on Sunday which was Rally Day. At the Sunday School session a program entitled "Building of a Christian World" was presented.

Mr. Arthur Bartlett of Marblehead, Mass., was visiting the local Unitarians over the week end. Mr. Bartlett is one of the New England secretaries of the Unitarian Laymen's League and is visiting the various chapters of this State. After the service Sunday morning he addressed the Laymen's League.

PRESENTED TO CARY LIBRARY

B. B. Feeley of this town has presented to Cary Library a very interesting curiosity in the shape of a Confederate Bond.

While the bond was never issued it was signed and numbered and was to run for 28 years at six per cent the coupons payable every six months. From the fact that it was payable in 1864 one would infer that in 1865 when the bond was printed, that it was the intention of the Confederate government to issue these bonds when they had won the war. Mr. Feeley found this curiosity among some of his father's papers, his father Jas. A. Feeley having been a member of Co. F. 11th Maine regiment and served during the period of the war.

MORE LOCAL NEWS FOR TIMES READERS

Along the general policy of the TIMES to give its readers the best, we have added another Local page which is page two of this issue and this page will contain the same up to date doings of the town and of interest to the readers generally.

Anyone having items of interest are requested to call this office, Tel. 210 at any time and such items will be published as long as they are of interest to those who desire to read the best local paper that can be made.

Page 3 of this issue also page 4-5-10 contain the latest local news.

A A Hutchinson who was taken to the Aroostook hospital Sunday for treatment is said to be greatly improved and is resting comfortably.

Among the Odd Fellows who are in Portland this week attending the session of the Grand Lodge are P. G. M. W. S. Lewin accompanied by his wife, Mrs. Daisy Towers and Mrs. Cora Stinson representing Portia Rebekah Lodge and Past Chief Patriarch O. A. Hodgins representing Aroostook Encampment.

WOODSTOCK GOLF CLUB

The closing Golf function of the Woodstock Golf Club took place at the club on Saturday last and was largely attended.

There were a number of mixed matches during the afternoon followed by supper after which the annual meeting was held and the prizes were awarded for the different contests during the season. The report of the Treasurer showed the club to be in a good financial condition.

There were many members from Houlton present and all took part in the matches as well as in the meeting following.

The meeting of the Houlton members with those of this club has been delightfully pleasant and all those who are members of the club from this town feel very much pleased with the privileges which have been extended them as well as the pleasure of meeting so many hospitable people from our neighboring town. When the Links of the Houlton club are able to be played on, the opportunities for continuing the pleasant acquaintances will be given.

PORTLAND-BANGOR

ROAD OPEN OCT. 24

New \$15,000,000 Cement Highway to be Officially Opened on Above Date

The new \$15,000,000 cement highway which has been under construction for some time between Portland and Lewiston will be officially opened to traffic on Wednesday, Oct. 24, according to an announcement by the state highway commission.

Although no observance of the event has been planned, it has been suggested by a member of the commission that there would be some brief demonstration commemorating the event, as it will be the fourth route of travel between the two cities.

The new road, said to be the finest ever constructed in Maine furnishes an unbroken hard-road highway between Portland and Bangor via Lewiston, and is the most important piece of highway which has been undertaken by the commission since its formation, in 1913.

It is constructed of the latest form of cement construction with reinforced steel bed, while it is broad and for the most part straight-away, and bad curves have been eliminated to the fullest possible extent, and engineers say that the Newburyport turnpike alone compares favorably with the new highway.

The matter of providing some sort of demonstration when the new road is thrown open to traffic has been left in the balance for the time being but it is likely that the chambers of commerce and boards of trade in the cities and town through which the road passes will be asked to get together in a joint meeting and work out some sort of a program for the observance of the event.

Rev. Daniel L. Yale of Newport, N. H., was the guest of Mr. and Mrs. S. L. White during his stay in town.

ANNUAL MEETING OF AROOS. FARM BUREAU

Important That all Members be Present

The Annual Meeting of Aroostook County Farm Bureau will be held at Presque Isle, Wednesday October 24, promises to be something more than just a business meeting. The Aroostook Farm Bureau has a high standing for helpfulness in promoting profitable agriculture in the state and is one of the big organizations of Aroostook.

The program as arranged for this year calls for moving Pictures, Hat making and Speaking. The moving pictures will be given at the Presque Isle Opera House at 10.30 A. M. These depict the growing of Maine crop potatoes and will certainly be of interest to Potato growers as some of the scenes are taken in the South and it will give a chance to see the difference between Northern and Southern methods.

The business meeting will be held at 1.30 p. m. in Perry's Theatre and will be presided over by President G. Herbert Foss.

At 1.30 p. m. a Hat making demonstration will be given by Miss Edna M. Cobb, Clothing Specialist of the Extension Service, Orono. This demonstration always appeals strongly to the ladies and many Presque Isle women are planning to attend as all women are invited. The place of this demonstration will be announced later.

Dr. Leon S. Merrill, Dean of the College of Agriculture will be the principal speaker of the afternoon. His talk is planned for 3 p. m. so that the women will have a chance to hear him. Dr. Merrill is the Director of the Extension Service of the University of Maine and is a direct and forceful speaker, he has a more thorough knowledge of Agriculture and its needs than any man in the State.

WOODSTOCK DRIVING CLUB CLOSES SEASON WITH SURPLUS

A meeting of the Woodstock Driving Club held Wednesday evening was largely attended. Secretary-Treasurer Tait read the financial report showing a balance of four thousand dollars on hand and all bills paid. On motion the sum of \$1500 was granted the Agricultural Society. The question, of winter quarters for Dan Hedgewood was left to the managing committee.

It was suggested that the horse, College Swift be bought by the Club and a motion made to that effect. Considerable discussion took place and the motion was defeated. J. W. Gallagher resigned as a member of the managing committee.

The handsome surplus of the season's operations was very pleasing to the members and the club is now in a position to finance, satisfactorily, the winter's expense connected with Dan Hedgewood and his trainer, Fred Cameron. Sentinel.

Mr. and Mrs. Arthur Walker of Ashland were Sunday guests of their daughter Mrs. Clarence Wass.

The many friends of Mr. and Mrs. Lee Bell will sympathize with them in the death of their infant daughter last week. Funeral services were held on Sunday afternoon.

Harley Tuck and wife of Seattle, Washington spent last week with Mr. and Mrs. Geo. F. Meritt and Mr. and Mrs. Perley Maxell and other relatives. This is Mr. Tuck's first visit since he moved away from here forty years ago and his wife's first visit in the east.

LAST APPEARANCE OF AROOSTOOK SPEED

Caribou Horse Wins--Many Surprises

Two out-and-out favorites were defeated, the State record broken, and local race attendance marks shattered Friday when Grand Circuit, Aroostook and local horses hooved about the Maine State Fair oval in the greatest turf performance ever staged in Lewiston.

More than 10,000 watched Single G. 158 1-2, the 13-year-old pacer dubbed "The Horse Time forgot," bow before the superior speed of the Boston horse Margaret Dillon. Single G. flashed to the front in the first heat when Sir Roch pushed him to the new State record of 2:03 1-2. This mark clips the record set at Bangor in September by Sir Roch by three-quarters of a second. Sir Roch had this heat almost won, but broke in front of the stands but a few yards away from the wire. It was all Margaret Dillon in the second heat, taking the pole early in the brush and holding it throughout. But the third and final heat was far from a walkaway. Margaret Dillon behaved in great fashion however, not once going into one of those breaks the brilliant racer has been displaying on half mile tracks. Margaret Dillon's victory over the veteran Grand Circuit performer was great, but only slightly overshadowed Roy Grattan's return to form in the free-for-all. Predictions that Roy Grattan would lead them all on return to form came true today. With Braden a hot favorite in every heat, the Presque Isle horse, which has been cleaning up all tracks in the past few months, was never in the race after the first heat.

It was a fight of the Grattans, Jackson and Roy. And the latter horses, termed the "jinx horse" because of ill and injury, came through over his Houlton brother. Came through in such brilliant fashion that his victory over Jackson Grattan and Dan Hedgewood was clean-cut and decisive. Roy Grattan had the pole and held it throughout the first heat, with John R. Braden only challenging the lead.

First heat: 31 1/2, 1:02 1/2, 1:37 1/2, 2:07 1/2. Second heat: 30 1/2, 1:02, 1:35, 2:07. Third heat: 31 1/2, 1:02 1/2, 1:36 1/2, 2:08.

MEDUXNEKEAG CLUB

Of the fourteen men who hung up qualifying scores during the second week of the weekly schedule, ten of them toed the foul line on Monday evening. The qualifying scores loomed up big on the black board and it was expected that some scores just a bit better than the ordinary would develop but such was not the case, the scores were disappointingly small. Hovey and Ebbett being the only men to uncover anything, the former winning the weekly prize.

The interest in these games is growing and as the colder weather approaches a much larger attendance is looked for.

Following are the roll off scores.	
Hovey	299
Ebbett	291
Gould	275
McGinley	274
Berrie	268
Lunt	268
Nason	262
Carter	254
Dow	253
Wilkins	244

AMERICAN LEGION AUXILIARY LADIES GIVE BRIDGE PARTY

On Thursday evening the ladies of The American Legion Auxiliary gave a most enjoyable bridge party at Society Hall which marks the beginning of the winter program.

Promptly at 8 o'clock the company began to arrive and small tables were placed about the hall where the many hostesses assisted in making the occasion one of the most enjoyable of the season.

There were 33 tables and during the evening home made candy and flowers were sold.

The affair was a most delightful one and the committee wish to thank all who did so much to help make it an affair of note in the community representing as it should the representative people of the town.

At the close of the evening refreshments of ice cream and wafers were served.

All pronounced the evening one of the most enjoyable of the season.

The Ladies Aid Society of the Methodist Episcopal church will serve a Harvest supper in the dining room of the church Thursday, Oct. 18, from 5.30 until 7 p. m.

A surprise party was held at the home of Mr. and Mrs. G. T. Sawtelle on Riverside street last Friday evening in honor of Mr. Sawtelle's birthday. The house was decorated with autumn leaves for the occasion. Whist was played and refreshments were served after which the party broke up at a late hour and everyone had enjoyed a very pleasant evening.

LAST APPEARANCE OF AROOSTOOK SPEED

The next heat went to Jackson Grattan through the crafty driving of Barrill.

While Roy Grattan and Dan Hedgewood were fighting it out coming over the home stretch, Barrill piloted Jackson Grattan in between the two and romped under the wire a winner by more than a neck. This heat was the most thrilling. Braden challenged for the lead at the onset and fought a neck-and-neck duel with Roy Grattan past the first quarter, the half and even around to the three-quarters pole with first one horse and then the other gaining a margin, but only one that could be counted in inches.

Jackson Grattan strove mightily to head off Roy in the final heat, but the Caribou horse, in the best of fettle at last, withstood all attacks and came half a length to the good.

Northern Mac, hot favorite, captured the 2:13 pace over Hedgewood Lassie. Perfect weather and track conditions existed.

The summary:

SPECIAL 1.59 CLASS, PURSE \$5000 (2 IN 3)	
Margaret Dillon, 158 1/2, 1:02 1/2, by Dillon, Asworth, (M. Manning)	2 1 1
Single G. 158 1/2, 1:02 1/2, by Anderson, Walker, (Harris)	1 2 2
Sir Roch, 158 1/2, 1:02 1/2, by Storch, (Loomis)	3 3 3
Time by quarters:	
First heat: 31 1/2, 1:02 1/2, 1:37 1/2, 2:07 1/2	
Second heat: 30 1/2, 1:02 1/2, 1:35, 2:07	
Third heat: 31 1/2, 1:02 1/2, 1:36 1/2, 2:08	
NEW STATE RECORD.	
FREE-FOR-ALL, PURSE \$3000 (2 IN 3)	
Roy Grattan, 20 1/2, 1:03 1/2, by Grattan, Royal, (Gowen)	1 2 1

John R. Braden, 20 1/2, 1:03 1/2, by John R. Braden, (Willard)	3 1 1
John R. Gentry, (Willard)	4 3 3
Dan Hedgewood, 20 1/2, 1:03 1/2, by Hedgewood, Roy, (Gowen)	4 3 3
Time by quarters:	
First heat: 32, 1:04 1/2, 1:37 1/2, 2:07 1/2	
Second heat: 30 1/2, 1:02, 1:35, 2:07	
Third heat: 31 1/2, 1:02 1/2, 1:36 1/2, 2:08	

2.13 PACE, PURSE \$500, BEST 3 IN 5

Northern Mac, 1:02, by Northern Mac, (Waiter)	1 1 2 1
Hedgewood Lassie, 1:02, by Hedgewood, Roy, (Gowen)	3 2 1 2
Northern Belle, 1:02, by Northern Belle, (Gowen)	2 2 2 2
Miss Stinson, 1:02, by (Willard)	4 1 4 1
Elizabeth Watts, 1:02, by (Willard)	4 1 4 1
Time: 2:13 1/2, 2:12 1/2, 2:12 1/2, 2:13 1/2	

SPRAGUE'S JOURNAL

The third quarterly number of Sprague's Journal of Maine History is at hand and we note that constant improvements are being made in this worthy publication. It has increased in size and is beautifully illustrated. Its first article is Editor Sprague's address on "Maine Forestry and Wild Life" delivered at Square Mt. Inn, July 13, 1923, should be read by every citizen of our state.

There is also a continuation of valuable articles by Prof. W. C. Sawtelle in his research work on the ancient history of the Mt. Desert Region, with an announcement that there is forthcoming from this talented historian more upon this same subject. The March of Benedict Arnold Through Maine; the editorial notes, the school department conducted by A. C. Thomas, Maine's Commissioner of Education and other articles all valuable and entertaining Maine history items also appear here.

The ladies of the Whatsoever Class of the Baptist church at 2.30 o'clock sale Friday afternoon at 2.30 o'clock at Buzzell's furniture store.

HUNTING AND FOREST FIRES

Governor Baxter Wednesday night, Oct. 10, issued a proclamation of warning in order that each hunter will feel a personal responsibility to do everything in his power to prevent forest fires within the state.

"The forests of Maine are unusually dry and there is imminent danger of fire," says Gov. Baxter. "On Tuesday, Dec. 16, the Maine big game hunting season will open and hundreds of men will be going into our woods.

"Most forest fires are preventable and many are started by careless hunters who have no regard for the property of others and who do not appreciate the hunting privileges, given them by this state.

"If dry weather continues and if forest fires start after the hunting season opens I immediately shall issue a proclamation suspending the open season until after a heavy rain. I realize that this will cause hardship, both to law-abiding hunters and to owners of sporting camps. The innocent many will suffer for the transgressions of the few."

BIRDS AND GAME

IN THIS SECTION

Chief Fish and Game Warden Writes the TIMES Regarding Bird and Deer Shooting as Follows:

The bird season, which opened on September 15th, on certain varieties and October first on partridges have been well patronized and many birds, especially partridges, have been taken to date, the latter being especially plentiful this season, due, more particularly to an ideal nesting season last spring. Deputy warden Roy Dudley of Stacyville in one day's travel, September 28th, from Little Spring brook to Grand Lake on the East Branch of the Penobscot, actually counted 79 partridges. Other game seen and counted on that day by Mr. Dudley included 1 bear, 2 moose, 7 deer and 2 rabbits. This goes to show how plentiful game is in this vicinity.

The deer season, which opened one hour before sunrise Tuesday October 16th, is expected to be attended by a grand rush to the favorite hunting grounds and many hunters from out-of-state have already made applications for licenses effective on that date. The so called "Buck and Doe" law has been repealed so now hunters are entitled to two deer of any kind. Killing frosts and high winds have already thinned out the leary undergrowth and with a little rain to wet them down should make for ideal hunting conditions. I think from careful observation during the summer and fall that deer are more plentiful than for some years, due, I believe, to favorable winter conditions for several seasons.

Mr. and Mrs. M. D. Wentworth and Rex Bridges of Bangor returned to their home Monday after a few days visit with Mr. and Mrs. Wentworth's daughter, Mrs. John R. Hall on Court St.

TRUNK LINE BUILDING HOULTON TO BOUNDARY

Now Being Surveyed--To be Built in Early Spring

As was mentioned in the TIMES some time ago, the building of a Federal road from Houlton to the Boundary line on the road to Woodstock is assured.

The matter was taken up with the State Highway Commission and Chief Engineer Sargent and he informed a representative of this paper that arrangements would be made to have this road built, the distance being about two miles.

Surveyors were at work all of last week running lines and doing the preliminary staking so that work will commence as early as possible in the Spring of 1924.

Few people are aware of the great amount of traffic on the road between Houlton and New Brunswick not only the people who live on both sides of the line but the tourists who seem to know of the beauties of the St. John river section and the good roads which abound all along that section.

Steps will be taken it is hoped to have the Canadian end of the road built, so that there will be an improved road all the way from Woodstock to Houlton as it would be equally beneficial and cement the pleasant relations that now exist between the two countries.

Harry B. Sharp started his new mill last week and is now sawing. This is a modern mill and is a great addition to the industries of Houlton.

Margaret K. Parkinson, of Houlton, Me., daughter of West W. and Mrs. Parkinson, was married to Clayton S. Hanson, of Houlton, Me., son of Clarence E. and Mrs. Hanson, by the Rev. John T. Cavers, at the Methodist church, Woodstock, on Thursday, Oct. 4th, 1923--Sentinel.

REFERENDUM VOTE FAILED TO PASS

Polling Light in Practically Every Section of the State

The result as far as the number of votes cast on Monday is concerned was as expected a comparatively small number of votes being cast especially in the country districts.

The question was whether Maine should adopt a 48 hour law for women and children employed in different occupations in the state instead of being allowed to work 54 hours under the present law. The facts and reasons for the continuing of the present law were well explained in all the papers of the state and while it was expected that the sections where organized labor predominates would poll a vote against this law, the vote on the whole was expected to be small.

Houlton voted: Yes 69 No 392.

Maine apparently has declined to join with Massachusetts and California in the adoption of a 48-hour law for the employment of women and children. The proposed amendment to reduce the maximum number of hours which they may work from 54, established in 1915, to 48 in any one week, initiated by petition and after its rejection by the last legislature, referred to the people at a special election Monday was defeated by a wide margin.

"No" Majority Over 15,000

With returns complete from all important industrial centers and thickly settled areas of the state where the measure was expected to receive the strongest support, the margin against the proposed law was 7,581. Proponents of the measure had polled 27,768 votes while 35,349 ballots had been cast in opposition. It was estimated that final returns would not be available for two days.

Returns were complete from Sagadahoc, Androscoggin, Waldo, Kennebec and Cumberland counties as follows:

County	Yes	No
Androscoggin	5598	4524
Cumberland	5842	7344
Kennebec	3810	5393
Sagadahoc	684	1169
Waldo	281	2454

Ten other counties (incomplete) \$82 \$88

Lewiston registered a "Yes" majority of 1871, while Auburn, just across the Androscoggin river, voted "No" by 224 majority. The total vote of the two cities was only 7525.

Among the heaviest votes for the measure were those cast in Biddeford and Sanford, two industrial centers, Biddeford voting 2779 in favor and 610 against, and Sanford, 1807 and 791. Waterville, another textile center, favored it 1362 to 800.

Portland voted against it by 500, while in Aroostook county, it was defeated in Fort Fairfield, nine to 177; in Caribou, 18 to 381; and Presque Isle 46 to 463.

MAINE STILL LEADING

In the Government report given in the TIMES of Oct. 10, it is interesting to note that Maine leads in condition of stock in Potato raising states not only for 1923 but for a ten year period the percentage of condition being 101 while for a ten year period it has an average of 84.

In the forecast of production for the season, Maine is fourth, Minnesota being at the head, followed by New York state, Michigan and Maine. In 1922 Wisconsin was second place. For a five year average Maine stands in 5th place.

This it can be seen while the quantity raised in Maine has not always led, yet in quality she is at the head and will be for many years to come.

AM. LEGION AUXILIARY HAVE NEW QUARTERS

The ladies of the American Legion Auxiliary feel that their efforts have at last been rewarded and that in the very near future they are to have a lodge room worthy of their efforts. Rooms have been secured in the Gray Block up one flight. New hard wood floors have been laid; the walls are being re-tinted and the woodwork re-painted. The owners of the building doing all they can to help make the rooms cheerful and pleasant.

The main hall is ideal and was formerly the workshop conducted and owned by Henry Gray. Realizing that another room was badly needed a good sized room secured by Hon. R. W. Shaw has been secured and a door is to be cut from the main hall through. A large coat room is being finished off and with neat and attractive furnishings it is expected that these quarters will compare very favorably with any to be found in the State. The entrance is good, only up one flight. The ladies of the Auxiliary are now making their plans and in the near future an official opening will no doubt be given in conjunction with the American Legion.

BEAUTIFUL AROOSTOOK

When this section had the well remembered flood the last day of April 1923 ad bridges were washed away as well as buildings in many cases when grass land was overflowed and in some towns water so deep in the streets that boats were used for conveying people from their residences to their places of business. When the railroad tracks were flooded and washed away and trains did not enter the county for three days, many people thought it a great calamity. To be sure it cost the county a great deal of money and yet the season on the whole has been one of the best that we have had for a number of years.

The planting of crops was delayed from three to four weeks, the season was backward and cool all through the summer and while gardens suffered for want of warm weather, the great crop of the county, potatoes, thrived on the cool days and nights, there was rain enough for suitable moisture and when the early shipping of the crop was at hand, lo and behold an almost unheard of thing happened, the first carload of potatoes was shipped out of the county on as early a date as had ever been heard of and not only that, the quality of the stock sent out was better than for many years, and the yield was as good as the average, due entirely to the excellent weather for the growth of the spuds.

Since the digging season started the weather has continued to be ideal, enough rain has fallen to give the soil the needed moisture, the days have been delightful fall days and what rain has fallen has been mostly in the night, aiding the farmer in his ploughing and on the whole just the kind of weather to put Aroostook "on its feet" with good prices for the main selling crop in the Garden of Maine.

Much criticism has been and is being made by the independent growers and buyers of potatoes about the crooked work of the Co-ops (The Maine Potato Growers Exchange) and whether there is any truth in the reports we are not in a position to know, however we do know that during the height of the digging season ever since 1893 when Aroostook commenced to be a factor in shipping potatoes, the low price is reached at the time when every one is digging. This season things have changed and during the past two weeks the price has advanced, due from the standpoint of an outsider, to the control of the shipments to selling points of table stock. The Co-ops who claim to control 60 per cent of the acreage are shipping practically all cars sold before shipment, so that the receipts at point of sale are enough to supply the demand and from this source there is no surplus, while under the old methods of selling many cars would go into the sale points not sold and with the methods of disposing of them there would be a surplus of cars which would eventually carry the price down and the grower would reap the result of a drop in price.

The grain and hay crops have been satisfactory and the prices are not as low as they have been in the past, so that on the whole Aroostook county is enjoying a wave of prosperity, which in the light of the past few years should be a lesson to many to put aside the surplus for the proverbial "rainy day" after the bills which have been accumulating have been paid and thus will prosperity continue to reign in the Garden of Maine a section of the good old State which year in and year out will continue to prosper and be a good place to live in.

LEARNING TO WORK

"What we need in our college as in the Country at large," declared President Sills to the students of Bowdoin the other day "is a return to industry." In these remarks the Bowdoin president placed his finger upon our great National weakness. A great many people don't know how to work and there is a considerable number who don't want to work.

There is a disposition on the part of certain labor union leaders to openly preach his doctrine of doing as little work as possible and they have a whole lot of followers who act as if they thought the advice was good. But the indisposition to hard labor

GAS FROM FOOD
PRESSES ON HEART

If food does not digest it turns into poisons which form gas. This often presses on heart and other organs causing a nervous, restless feeling. Simple buckthorn bark, glycerine, etc., as mixed in Adlerika, removes foul, decaying food-matter you never thought was in your system which caused gas and pressure on heart. Adlerika expels poisons and gas from BOTH upper and lower bowel. EXCELLENT to guard against appendicitis. O. F. French & Son, druggists, Cor. Main & Court St.

is by no means confined to them. It is pretty general, at least much more general than it ought to be.

President Sills applied his remarks to the students to whom he was talking:

"For this National weakness," said the president "our systems of education are in part responsible. In our schools very few have learned to work hard. Too many students are content with etting by, with knowing a good deal in general and very little in particular."

It is unfortunate that this is only too true. Students go to school and college to fit themselves for their future careers. If these careers are to be creditable to themselves, they must work to make them so. The instances of men succeeding without hard work are very rare. We don't know that there ever was such a case. But a student is hardly likely to loaf through college and then get out and dig after he has tucked his diploma away in the top bureau drawer. It is true that some men who have taken life easy in college have succeeded grandly after they got out, but that has been because they learned later that they must work.

In any event their easy life in college set them back an indeterminate number of years. A course in college is a pretty serious proposition. It is expensive and requires a lot of time. If it is to be worth while there must be hard, persistent work on the part of the student from the time that he passes his entrance examinations until he has marked a period at the end of his graduation essay. This is no new discovery and it takes no great amount of wisdom to comprehend the fact. Yet a surprisingly large number of students are content with what they call a gentleman's passing rank.

Primarily, the individual student is to blame for this. No boy can be made to study if he doesn't want to. But there is work for the instructors to do also. They can't apply the good perhaps, but they can impress upon the students the folly of their waste of time. A student who does not work in college, may work afterwards; a student who does work in college is certain to, if he has the health and the mind to do so.

We repeat that President Sills is right in saying that the indisposition to work is our National weakness. That weakness must be overcome or the consequences will be dire.

BEQUEST FOR U. OF M.

The University of Maine is to be congratulated upon the bequest of \$100,000 left to it by the late Oliver Crosby of St. Paul, Minnesota, an alumnus of the college who acquired a large fortune in the Middle West. The money will be used in erecting a building for the department of mechanical engineering, which the institution has greatly needed for some time.

The Crosby bequest should and probably will influence other graduates of the Orono institution to remember it in a similar way from time to time. The college will continue to be supported by the State treasury as it has been in the past. This is as it should be. The university is a State affair and it affords the opportunity to Maine boys and girls to obtain a technical education which no other state institution offers. But if the school is to do the work that it should do and is capable of doing in Maine, it must have assistance other than the State is able to give.

At every legislative session the university authorities present a budget which is far in excess of what the State can afford to meet. Every item that is called for in these bills is needed by the college and should be supplied if it is to do the work that it was created to perform. But quite naturally there is a limit to what the people can be taxed to pay, and the university suffers accordingly.

To make up the balance between what the State can pay and what it needs the institution should be able to depend upon its alumni and friends, sources of revenue which other Maine colleges have to look to exclusively.

In the past there has been a leaning on the part of many citizens of Maine that men and women who have succeeded in life after having received their education at the State university have been rather neglectful of her and inclined to permit her to get along as best she could without the taxpayers would contribute to her support. This apparent lack of interest, on the part of the alumni body, has, to some degree at least, served to prejudice the college's case before

the members of the Legislature.

Friends of the school and those who realize what a splendid work she is doing and is capable of doing have been glad to note that this has been changing in recent years. The campaign of the alumni to raise a half million dollars for a gymnasium was an evidence of this spirit of loyalty and devotion on the part of the graduates of this splendid school.

EDITORIAL COMMENT

THE RESULTS OF VOLSTEAD

Prohibition may never be made a direct issue of our national elections; because it is not likely that any party will have the hardihood to take the wet end of the issue.

The issue is here, but how will it be decided? We know the whole story in Maine for we had it for 50 years. Each political party called the other the rum-party and each protested its adherence to Virtue and Chastity.

The republicans won chiefly because it hollered the louder and did its drinking the less ostentatiously. And because it passed all of the prohibition laws getting its spiritual exultation from Boston.

There was never a democratic convention, run on the basis of the "red badge of courage" (in the way of a punch-bowl in the ante-room) that did not "view with alarm" the hypocrisy of the republican party and pledge itself to a "strict enforcement" of the laws prohibiting the sale of liquor. And there never was a platform of the republican party framed in the odor of nutmegs and spices, that did not assert anew its fealty to the principles of prohibition and "pledge anew" the republican party to the strict enforcement of all laws and to the making of as many new ones as were required.

But now it is different. The thing is really pinching. A man is distinctly in danger who buys and sells liquors. And yet we have no heroes who will stand for the wet end of the argument. Why? Because there is odium in it that's why. No party can endure that outwardly declares for the open saloon. The call is out for a courageous leader of the "rum-party." Who is he? Where is he? Each of them who has come forward has come exactly as they used to come in Maine. "I am an honest man. I do not believe in this Volstead act but (and here he shouts aloud) as long as it is the law I am the boy to enforce it."

The Volstead act is 11 months old. Some of its critics say: "We have not produced a bona-fide sinagogue. In corruptible country." Of course we have not. Laws do not produce such things. People produce these results not laws. But we have in Maine for instance a "dry state" such as we never had before. We have booze but we have also a percentage of robbery, occasionally a murder, now and then a bigamist. So far as temptation is concerned, there is none in the way of walking a straight and narrow way, with a clear head.

What has been done in the way of wickedness. The record is not pretty. The courts have been called on to prosecute a number of judiciary; eminent members of the American bar; prominent bankers; high officials of state and federal government; Assassination, highway robberies and piracy have adorned the annals of our land. And not even now, in New York for instance, do they sing "YES; we have no Scotch-whiskey today."

Since January, 1920, 50,000 cases have been entered in our courts arising from this Volstead act. There have been 79,490 convictions. The fines have totaled \$12,000,000. Jail sentences have aggregated over 3,000 years. These are official figures of Attorney General Daugherty.

We are told that the people do not want this law. But there may be a lot of laws good for folks that they do not want. We are told that we are breeding lawbreakers, hypocrites, perjurers. Can any law breed anything that is not in the heart? This is not the issue at all. We learned

that when we had this in Maine. It never did a thing to people in respect to changing their fundamental character. It often brought it out; but never created it. There were people who sold rum and people who drank it and yet, the law never made one of them over from good people in the first place. Rum did it.

The issue is whether this be the best way to handle the matter or liquor. A friend of ours used to say: "Whatever law you have in the rum-business; you will wish you had something else." It is an economic situation some of its appeals to cupidity and yet control the use of liquor to certain legitimate ends. Are there any legitimate ends? What are they, if any? Would the bootlegger find his occupation gone; if liquor were sold at reasonable price under strict definition by federal authorities at stated places and to proper persons only?

In our opinion, two serious phrases confront the issue on one side the growth of drinking illcity, by society under the spur of the smart-set; on the other the complete disappearance of the saloon in a great portion of the country and the growing difficulty of obtaining liquor even at the ruinously extravagant prices. Balance these two and you have the answer. Do you want it or don't you? Would you vote for the old order? Answer this before you join with any party for or against. Lewiston Journal.

SEX LEGISLATION

Our laws do not permit Man to regulate the hours of labor of Man; but Man has assumed thru the courts to regulate the hours of women. In other words a man may work 24 hours a day if he like, except in Railroad service where he may work 16 hours in one day; it being felt that it endangered human life to have sleep men running railroad trains.

The National Woman's Party has adopted a platform of work which it is preaching everywhere. It is as follows:

Resolved: That woman shall no longer be barred from any occupation; that every occupation open to men shall be open to women; and that restrictions on the hours, conditions and remuneration of labor shall apply alike to both sexes.

We have had much legislation in America which singled out women for shorter hours. We have a referendum in Maine October 15th on a 48-hour law. Under this law men may work as long as they please; women may not work over 48 hours a week under penalty of punishment.

The National Woman's Party is not a Labor party; nor is it opposed to a

48-hour law. It simply says that any such law should apply to men as well as women; that they will never support any further discrimination against women; that it tends to throw women out of occupation; that it makes them slaves to men; that laws should be universal and relate to all states in the Union alike and that the present method is subterfuge; whipping the devil over the goat's back.

More damage is done by handicapping women in gainful operations of industry by limiting their rights to work, than is gained in any suggestion of reform of health of women. This is the statement of the Woman's National Party leaders.

At Tacoma Senator Smith who spoke for the 48-hour law said that the 48-hour law for women only, did not tend to throw women out of employment.

This may be true; we do not know. We only know what has been reported by the investigators. Adelaide Steadman, Field-Research Secretary of the Women's Party says that she has made a thorough investigation of results in the District of Columbia where a strict 48-hour law for women only was enacted. Women-workers there are dissatisfied and discouraged. Says Miss Steadman, "Practically every laundry was visited. These plants come under the 48-hour law for women; not for men. In every place, the women had been discharged and replaced by men. The manager of one plant told a typical case of the results of the eight-hour law for women but not men. He used to employ 25 women in his marking and sorting department. He had been compelled to discharge 20 of them. The hotels dismissed their women in great numbers. The manager of one of the hotels in Washington dismissed his woman cashier; the woman at the clerk's desk; the woman checkers in the pantry; the women employed to run elevators and replaced them by men because the eight hour law made it impossible to keep them.

Miss Steadman says that these incidents could be multiplied almost indefinitely. "It is true that labor is exploited; but sex-legislation is not the remedy," says Miss Steadman. Women no more constitute a class were classed with paupers, criminals than do race, color, or creed."

Before women had the vote they idiot and Indians, not taxed. We labored to give women the vote. Our

concern was that when the time should come they could protect themselves as they pleased by the ballot. The crime of the ages, in the withholding of the ballot from woman was assuaged. They are now free. They have the right to say whether they shall have equal right with men to work as do the men and by uniting with men to regulate the working-hours of men and women on a basis, consistent with economics and laws of supply and demand.—Lewiston Journal.

CONFIRMED PROOF

Residents of Houlton Cannot Doubt
What Has Been Twice Proved

In gratitude for relief from aches and pains of bad backs—from distressing Kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Houlton, who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Houlton kidney sufferers.

Mrs. M. H. Small, 9 Smyrna St., Houlton, gave the following statement August 17, 1911: "I have used Doan's Kidney Pills whenever I felt the need of such a remedy. I was troubled with kidney complaint for several years and I never used anything that helped me as much as Doan's. I can say since buying the first box at Cochran's Drug Store, I have used them exclusively. I shall always be glad to recommend this remedy."

On October 15, 1920, Mrs. Small said: "Doan's Kidney Pills gave me a lasting cure."

OF LOCAL INTEREST

Miss Marion Craig is spending a week with her parents in Debec.

Mrs. Perley Whitney left Tuesday for a ten day visit with relatives in Warren, Me.

John A. Miller has rented the Darling house on Leonard street and has moved there with Mrs. Miller.

Miss Marion Robinson of Boston is in town and is receiving a cordial welcome from her many friends.

Engene Knox a student at the University of Maine was in town over Sunday with his parents, Mr. and Mrs. A. W. Knox.

J. P. Darling Traffic Manager of the Maine Potato Exchange moved last week with his family to Caribou much to the regret of his many friends in Houlton, although his business will bring him to Houlton each week.

BIRTHDAY PARTY

The home of Mr. and Mrs. Harold Chadwick was the scene of a merry party last Thursday afternoon from 3 until 5.30 o'clock when their eldest daughter Carolyn celebrated her sixth birthday.

The happy group of 16 played games under the leadership of Miss Betty Hume.

Refreshments of ice cream, animal cookies and a birthday cake were served. The pink and blue favors were very attractive and appropriate for such a party as this, as well as the Jack Honor pie with the pink ribbon streamers for the boys and the blue for the girls to draw their prizes from.

Miss Carolyn received many presents from her young friends.

At 6 o'clock Mr. and Mrs. Chadwick entertained at a family dinner party with 10 present.

ANNUAL ROLL CALL OF PORTIA REBEKAH LODGE

The annual roll call of Portia Rebekah Lodge was held in the lodge rooms last Wednesday evening with a good number in attendance.

After the regular meeting the secretary called the roll, with many responding with a quotation.

The program committee presented the following program:

Plano Solo Miss Helen Bither
Vocal Solo Mrs. Emerald Barker
Address Rev. Albert E. Luce
Plano Solo Mrs. C. W. Towers

At this time W. S. Lewin made a few interesting remarks on his trip to Cincinnati, Ohio where he attended the I. O. O. F. National Convention.

Following the program, refreshments were served in the dining room by the committee in charge.

REDUCTION IN PRICE

The most remarkable growth among the magazines that are published in the interests of womanhood in this country has been shown by one that is the product of a Maine man's mind. No doubt the millions of women readers of this publication could tell you without a moment's hesitation that the man referred to is Cyrus H. K. Curtis and the publication, The Ladies Home Journal, the women's magazine with the largest circulation in the world.

This magazine when the general price of commodities fell, following the period of war inflation, was the first to decrease its selling price—from 20 cents to 15 cents for the single copy.

Now even though manufacturing costs have again arisen above those existing a few months ago and with living costs sixty per cent higher than the pre-war scale, the Journal has decided to put into effect a plan that has been its aim for years, as it has been the achievement of the Saturday Evening Post—to offer to the homes of America not only the best magazine in its field, but to sell it at the lowest price.

And so, commencing with the greatest October issue ever made (240 pages) the single copy price through news dealers and copy agents will be ten cents.

This is being done at a time when the circulation of the Journal is the highest in its history.

Neither the physical quality nor the editorial merit of the magazine will be in any way diminished. On the contrary, the editorial plans for the coming year unquestionably insure the finest copies that have ever been published.

With the new price of \$1.00 magazine readers will do well to order this, so that you may secure each issue, by calling at the TIMES office and subscribing for one year.

MRS. P. N. BURLIEGH

ENTERTAINS

Mrs. Preston Burleigh gave a most enjoyable "at home" on Wednesday afternoon in honor of her son's wife, Mrs. Albert Burleigh.

Mrs. Burleigh is a stranger in Houlton.

Mrs. Ray L. Young and daughter Nella returned last week from a weeks visit in Boston.

Mrs. Elita M. Libby leaves the last of this week for Lawrence, Mass., where she will spend the winter.

Elwell Hodgins of this town, son of Mr. and Mrs. O. A. Hodgins has been elected Treasurer of his class at University of Maine.

Nazimova in "Salome", Mabel Ballin in "The Journey's End" and Milton Sills in "Legally Dead" are some of the pictures recently booked at the Temple.

Last Tuesday evening a number of the members of the Houlton Rotary club went to Fort Fairfield to attend the regular meeting of the club at the Plymouth.

ton coming here on her wedding trip and on her return plans to sail with her husband to China and the Philippines. She is most attractive and during her stay in Houlton has formed many friends.

The Burleigh home was most attractive in its decorations of cut flowers and plants. Mrs. Preston Burleigh and Mrs. Albert Burleigh received and were assisted by Mrs. Harry Burleigh, Mrs. Parker Burleigh, Mrs. P. C. Newbegin and Mrs. T. V. Doherty poured and Mrs. Frank A. Peabody presided over the ice cream. They were assisted by Mrs. Leigh Cleveland, Mrs. Fred Putnam, Mrs. Beatrice Willey, Miss Ellen Newbegin, Mrs. Joy and Miss Evelyn Pearce. The dining room was made cheerful by the use of lighted candles and the party was one of the prettiest of the season. There was a large attendance present.

AROOSTOOK ANTI-TUBERCULOSIS ASSOCIATION

A special meeting of the Aroostook Anti-Tuberculosis Association, in lieu of the annual meeting, will be held at the rooms of Miss Edith F. Knight, District Nurse, Presque Isle, Friday, October 19, at 10.00 o'clock A. M. Matters of importance will come before the meeting for discussion and action. All interested in the remarkably helpful work that is being prosecuted by the Association are cordially invited to be present, even though not be, strictly speaking, members of the Association itself.

B. & A. ENGINE HOUSE NEARING COMPLETION

With sections of the structure already more than half completed the construction work on the new engine house of the Bangor & Aroostook railroad at Northern Maine Junction is being rapidly pushed forward to completion, in order that the building may be ready for occupancy before really cold weather sets in. The new round-house, which is being built at an estimated cost of \$75,000, will have stalls for 12 locomotives replacing the old structure of eight stalls.

The new building, which will be completely equipped for terminal service, is of reinforced concrete construction on steel supports. It will have a machine shop, capable of making ordinary running repairs, and will also be supplied with an oil storage house and standpipe. The entire structure will be of fire proof construction, built on the lines of most modern requirements, and will be a notable addition to the railroad's equipment.

Parts of the engine house are already 60 per cent completed and the last of the cement work on the house itself and the adjoining machine shop has been finished. The roof is already 60 per cent completed, while two of the 12 ash pits are done and the forms are ready for the pouring of cement in three more of the stalls.

The building was begun in the early summer and it is expected that it will be ready for use within the next month or so, prior to the beginning of winter's really cold weather. It is located on the site of the old, wooden roundhouse, which was erected 18 years ago with a capacity of housing eight locomotives.

Other building construction work, which has been in progress on the B. & A. during the summer, included the erection of a fireproof oil storage house at Derby, and a similar house and tanks at Caribou. The season's work was done following the approval of the annual budget, which totalled more than a million dollars for improvements and maintenance.

To Wider Fields

A young country minister, noted for his jollity, was dining at a farmhouse one Sunday and when his plate of roast chicken was passed to him, he remarked facetiously:

"Well, here's where that chicken enters the ministry."

"Hope it does better there than it did in lay work," rejoined the bright boy of the family.

GOV. BAXTER PRAISES HIGHWAY COMMISSION

Things Advocated are Hard Surface Roads, Gas Tax and Bond Issue

Does Not Believe in Full Time Comm'n

Continued from last week

The completion of the Portsmouth-Kittery bridge marks an important event in the history of the State. This bridge was built under a separate Commission consisting of the Governors of New Hampshire and Maine, and the Secretary of the Navy. \$1,500,000 was appropriated for it, and \$1,433,916.29 was spent upon it. It is the first bridge of this kind in the State, and it is a credit to the State of Maine, in addition to its \$500,000 contribution, was obliged to pay for a 300-ft. span, to connect the main spans with Badger's Island, and to construct a road across that island with a second bridge across "Back River," so-called. The State of New Hampshire, on the other hand, furnished its own approach and the cost thereof was not much less than that of Maine's extra work. The engineers who had charge of this construction kept a careful watch of every detail and expenditure, and deserve a great deal of credit for what they did. It is unusual to have a balance left on an appropriation such as this.

The Governor and Council authorized the purchase of an entire block of land on the Kittery mainland, that will be laid out as a park and in which the memorial feature of the bridge may be located. This will give those who come into Maine a pleasing prospect and first impressions often are lasting. I believe the investment in this land will prove a wise one.

You will be interested to know of the traffic that has crossed this bridge for that shows what it means to the State. The first week 152,495 passengers and 46,450 cars crossed the bridge. The average passengers per car was 3.28. In estimating the entire traffic I have taken the actual count of the first 17 days and have figured three months' traffic on that basis. For the second three months I have taken 60 per cent of that traffic, for the third three months 40 per cent, and for the fourth three months 20 per cent. If I am correct in these figures, 4,548,821 passengers and 1,388,970 cars will cross every year. The old toll-bridge charged 15¢ per car, which on my figures represents a total of \$282,345.00 for automobiles alone. Teams and passengers on foot would increase this revenue considerably. In other words this amount is saved those who cross the bridge, and it represents an excellent return on a total investment of about \$1,750,000, which includes the cost of both approaches. All the states in the Union, except Idaho, Nevada, South Dakota and Oregon, have represented in the count referred to, while Massachusetts toll cars exceeded those of Maine by 57 per cent.

The gasoline tax of the last Legislature is bringing in a good revenue. On a basis of actual receipts, and estimating that these will fall off 25 per cent, every three months, we will average \$1,434 daily throughout the year, or a total of \$523,716.88 per year. This a good revenue that is not felt to any great extent, and had it been anticipated that the price of gasoline would have fallen, as it has, I believe the Legislature would have made the tax two cents instead of one cent per gallon.

Motor trucks have come to stay. Our business interests could not do without them. They are paying reasonably heavy license fees at the present time, but I think it may become necessary in the future to place certain reasonable limits upon the speed of trucks, for of course, these great weights cause unusual wear and tear on our road surfaces. More attention is required to guard against overloads on trucks and motor policemen need to be more vigilant to apprehend those who offend our maximum weight laws.

The enforcement of our Highway laws is of vital concern. Its importance cannot be over-emphasized. It is even more important for our highways to be safe for travel than it is to have them smooth and comfortable. Law abiding citizens who go out for pleasure or business are entitled to protection. We really have but begun on the enforcement problems. Ex-

perience teaches us many things and I believe we must do much more in Highway enforcement than we yet have attempted. Although I advocate economy in every branch of the government, I should be willing to have enforcement cost even more than it does if we can really make our highways safe.

Every time I return to Augusta after a trip about the state I am grateful that no accident has occurred to me. Reckless drivers are met everywhere. They pass one on turns and on hills regardless of consequences, and they drive with blinding lights that menace everyone who is obliged to drive after dark. Boys and girls who have not reached the age where they are entitled to a license may be met almost anywhere driving everything from a Ford to a Pierce-Arrow. Moreover, in my opinion many adults who operate cars are not at all competent to do so.

In the first place I believe that every operator of a motor vehicle should be given a thorough examination, as is done in some States. Our people should be made to realize that whenever they drive a car on the roads of Maine they must comply with the laws, or else their license will be taken from them. What astonishes me most is that there are not more accidents than there are for with the driving that I encounter I should suppose a day would not pass in Maine without one or more fatal accidents. There must be some unseen Guardian Angel that protects us from harm!

The cost of our enforcement for the fiscal year of 1925 was \$7904.27. We have 22 inspectors who drive automobiles and 21 motorcycle policemen. These men are faithful and doing excellent work, but in my opinion the enforcement division can be strengthened. Changed conditions require changed methods. Every member of the enforcement division should be able to operate a motorcycle or at least able to operate one, including the chief himself. I should like to see an ex-service man placed at the head of the department; a man who knows something about military discipline and organization, who would make of his force not only a body of men who would enforce motor laws, but who could be called upon to enforce all law and respond to any emergency.

The problem of the drunken driver is a serious one, and if I had my way they all would go to jail. One difficulty is that the individual citizen does not like to complain of an offender but it is his duty to do so. If every citizen would report to the State Government intoxicated and reckless drivers, we would make some headway. I was in the town of St. Francis, Aroostook County, a few weeks ago and a man drove through the center of the town at the rate of 45 or 50 miles an hour. He endangered the lives of children playing in the street and of citizens lawfully using it. I immediately went to the Deputy Sheriff, had the man arrested, fined, and his license removed.

Every citizen should be a self-appointed guardian of the law, and his own instinct of self-preservation should prompt him to do so, because every day he may be the victim by one of these outlaws. Hardly a week passes without my being asked to intervene and obtain the restoration of a license for some person who was convicted of operating a car while intoxicated. It is useless for anybody to make such an appeal to me. What particularly disturbs me is that discrimination often is made in these drunken cases. There should be no favors granted a citizen just because he has ample means or friends, or influence.

Let every member of the Maine Automobile Association himself obey the law and help the officers enforce it. The Massachusetts officers report that 87 per cent of the motorists disobey the laws and no doubt Maine's record is not better. Such a state of affairs is disgraceful. In my travels around the State I often stop the Highway policemen, and obtain much information from them. Occasionally friends of mine will pass and see a motor cycle officer "holding up" the Governor. This furnishes much amusement for they gain the impression that the Governor has transgressed the laws he has sworn to enforce.

In the State of Maine the next ten years will see even more marked improvements in our roads than has been made in the past. Our road policies are well established and well matured. Our trunk lines no doubt will be completed within that period, and new trunk lines projected. I marvel at the progress that has been

made, and congratulate the Maine Automobile Association and the State Highway Commission for having been the principal factors in it.

BOWDOINHAM FACTORY CHANGES OWNERS

Papers were passed Thursday by which the Sagadahoc Fertilizer Co., William B. Kendall manager, a Bowdoinham co-partnership for 43 years, passes into new hands, both William B. and Edward P. Kendall retiring from the business.

The purchaser is the Sagadahoc Fertilizer Co., Inc., of which E. E. Philbrick of Damariscotta is president, Horace S. Dodge of the same town is treasurer and R. I. Dodge is secretary.

Horace S. Dodge has been one of the most successful fertilizer salesmen in New England for many years and is said to have sufficient business promised him to make the production of fertilizer at the Bowdoinham plant on a larger scale than ever before a necessity the coming season.

The transfer includes the factory, wharf, office building and goodwill of the old concern. The plant is of sufficient size so that its production can be greatly increased without addition to the present buildings and a large output is already planned by the purchasers.

While neither of the Kendall brothers has any particular plan in regard to the future each has sufficient business interests outside of the fertilizer factory to keep him busy. The old company will retain room in the present office building for a few months during the time it is closing up its affairs prior to the sale to the new concern.

because the air is filled with tiny dust particles. These absorb the light rays which make the rays which make blue. The occasional use of

COMM'R. PARSONS

DECLARES GAME

CONDITIONS GOOD

Hon. Willis E. Parsons of Dover, Foxcroft, commissioner of inland fisheries and game, in a recent interview said that game conditions are good, certainly comparing favorably with last season and the year immediately preceding.

"Two years ago excessive drought, long continued, dried up many of the small streams, destroying millions of fry, some of the larger fish as well being caught in stagnant pools and finally perishing, so that it was predicted that it would be several years before the fishing would be as good as formerly," continued Commissioner Parsons.

"Contrary to former expectations, however, the season just past has been one of the best known for many years for fishing. From Sebago, Rangeley, Belgrade Lakes, Grand Lake Stream, Moosehead Lake and the far off Aroostook Fish River chain of lakes have come reports of good fishing, some of them from sportsmen 'the best for many years.'"

"Until this year fishing has been followed the first of October by the hunting of big game, but the last legislature very wisely changed the open season for hunting, so that while the shooting of ruffed grouse could begin as formerly on the first of October, no killing of deer is allowed until after the fifteenth of the month, or daylight the morning of the sixteenth of October. The change was of obvious reasons, as formerly more than half of the game shot the first two weeks in October spoiled before it reached its destination. Most of the game taken out of the first two weeks was made up of doe and fawns, or lamb deer, which was another waste. After the fifteenth of this month, the buck and larger deer are moving about and more buck will be taken, hence the restriction that one of the deer must be a buck with antlers has been removed and two deer of any kind can now be taken in the eight northern counties.

"Again after the middle of October, forest fires are not so liable to occur, and what is more important than all else is that the leaves are fairly well off the trees by the 16th of October and there is not as much danger of taking human life. Last year five men were killed in the woods before the middle of October. I think that these changes have been generally approved by the people.

Plenty Of Birds

"There are plenty of birds this year the ruffed grouse being plentiful in the big woods away from the automobiles, and, even on automobile roads, have been seen in large numbers. Reports have been received of some partridges being killed by the cars or automobiles, as they passed over them being too tame to fly. Last season I saw one ruffed grouse killed in this

Up-to-date courses in Bookkeeping and Accountancy, Shorthand and Typewriting, Penmanship, etc. that really fit you to fill a good position. Write, call or phone.
O. H. Hodgins, Prin., Houlton, Me.

manner myself. We have had several good hatching seasons and last winter the heavy fall of snow with no crust was favorable.

"Woodcock shooting has not been as good this season as some other years when a late flight added to the sport and raised the average above what was expected earlier in the season. This interesting sport is enjoyed mostly in Androscoggin and other southern counties, while along the coast at Merymeeting Bay and other places the duck are on the increase and have more than doubled in a few years. This is due partly to the migratory bird law passed by the federal government a few years ago, but coupled with the increased vigilance of faithful state deputy game wardens patrolling the feeding grounds.

Deer Are Increasing

"Deer are increasing, it is believed, in early part of the state. In some sections there appear to be as many deer as ever and very many more than a few years ago; in other words, the deer are coming back, and although there are more hunters than formerly, deer are more than holding their own. This seems to be the consensus of opinion among wardens, guides and woodsmen who traverse the great wilderness. It is true that deer change feeding grounds and there are places where they are scarce while in other localities, as one guide expressed, 'there were never so many deer as now.'

"Much of the poaching has been checked, as people realize more the importance of conserving the game of the state, and game associations working with the wardens are making the illegal killing of all kinds of game unpopular. The wholesale slaughter on the border that existed for years when deer were hauled out by the sled load into Canada has been checked by wardens who patrol the border.

"I counted 229 deer in a rapid trip at the same season of the year two summers ago. One man stationed on the Allagash declared there were four times as many deer on that river than four years ago when he went there. Another party who went down this season counted 395 deer in a few days, or before it reached the mouth of the Allagash.

"The same conditions exist on the upper waters of the St. John, and these rivers and the lakes and streams connected with them form the great breeding grounds for the state, and being protected here the deer must drift down nearer civilization where they will be more accessible and accessible and easier to get out when taken.

Moose Holding Own

"The moose is still protected, and possibly holding his own, although it will probably be many years if ever, before there is another open season on moose in Maine. There are, however, a few moose in nearly every county with the greater number in Washington and Hancock counties.

"It is thought that the Katahdin Park Game Preserve, with 20,000 acres, and the Rangeley Game Preserve, with 63,000 acres, will have a beneficial effect in preserving the game. Some claim they can already see an improvement in Katahdin Park which has only been established two years. The Rangeley Park was established this past season and the lines have not as yet been completed. No hunting or trapping is allowed, and good results are expected in this territory within a very few years.

"Deer like other wild animals, soon learn in what sections they are wholly unmolested. Two tracts of large extent where wild life is undisturbed in this state are going to be of material advantage to the natural propagation of birds as well as animals in our northern wildernesses."

Mrs. Allen T. Smith was a passenger on the Tuesday evening Pullman for Boston.

RESOLUTIONS ON THE DEATH OF CHAS. E. DUNN

At a meeting of the Board of Trustees of Houlton Savings Bank, held this day, the following resolutions were adopted:

Whereas, Charles E. Dunn for many years a Trustee of this bank, died at his home in Houlton, Maine, September 30th, 1923.

Resolved, that we recognize in him an officer whose sound business principles and judgment were of great value to the bank, and a help to his associates, that we do hereby express our sorrow and deep sense of loss of one who held our confidence and esteem.

Resolved, that this brief expression of our esteem be entered upon the permanent records of this bank, a copy sent to Mr. Dunn's family, and a copy given to the local press.

L. O. Ludwig Sec'y.
A true copy of records.

VACATION IN AROOSTOOK

When you think of your vacation, Wandering what trail you should trace, Just come to old Aroostook, Never mind the time or place, There the atmosphere is bracing, The scenery can't be beat, When you go home, tell your neighbors, 'Till then we enjoy a treat.

The Farmer in Aroostook, Are a hearty, softy lot, Though they work like all creation, To keep their hands off the pot, Come on and get a sample, Of what this spot can give, You'll remember, while you live.

This people in the village, Extend a welcome hand, And gladly give you pointers, And entertain you grand, If you visit old Aroostook, Whatever place you go, You'll receive a cordial greeting, Come and see, and then you'll know.

Around the Town

George E. Dunn was a business visitor in Bangor the first of the week. Rain fell during Sunday evening and night and was an assistance to the potato digging.

Mr. and Mrs. C. B. Esters were in Bangor the first of the week making the trip by motor.

Miss Madeline Taggett left Sunday for Millinocket where she will visit for a time with relatives.

Among the business callers in town Monday were George McNally and George Mooers of Ashland.

Mrs. W. H. Barrett left this morning for Orono where she will visit at her former home for a short time.

Miss Helen Daggett of Presque Isle spent several days in town last week the guest of Miss Elaine Wilson.

Ellis McLeod who is a student at Colby College spent the week end with his parents, Mr. and Mrs. L. L. McLeod.

Mr. Coy Hagerman of Boston, Mass. spent the week end with his parents, Mr. and Mrs. Geo Hagerman on Court St.

A daughter arrived at the home of Mr. and Mrs. Chas Davenport at their home on Highland Ave. on Saturday last.

Moses Barpee Chief Engineer of the Bangor and Aroostook R. R. went to Washington, D. C. on business Monday.

Mr. and Mrs. Tyler Nevers of Waterville arrived Tuesday afternoon for a few days visit with their parents in town.

Mrs. Elizabeth Dyer of Portland arrived last week for a few weeks stay with her son Hamilton Dyer on Highland Ave.

Miss Clyde H. Ricker R. N. of the Maine Baby Saving Society was in town this week in the interests of her organization.

Mrs. Howard Childs of New York arrived Tuesday morning and will be the guest of Mr. and Mrs. W. P. Mansur for a time.

Mr. and Mrs. Irving Lovely and daughters, Marguerite and Ruth spent Sunday in Island Falls with Mr. Fred Berry and family.

Allan Quimby of Portland was in town Saturday en route to Davis Pond where he spent the week end with a party of Houlton men.

Mrs. W. L. Scribner who has been under treatment at the Aroostook hospital for the past two weeks is reported to be greatly improved.

Mr. and Mrs. E. Chambers, Mrs. Fred O. Smith, and Miss Elizabeth McGary left Sunday for an auto trip through the southern part of the state.

Prof. W. S. Knowlton and wife of Monson, Me will observe their 84th and 79th birthdays, Oct. 22, 1923. Old pupils and friends are invited to write them.

Rev. Albert E. Luce was in Lincolnstone Monday and Tuesday to attend a ministerial association meeting. He was accompanied by Rev. R. C. Dulezelle of Hodgdon.

Mrs. E. L. Cleveland and daughter Marion left Tuesday evening for Boston where they will spend the winter with Mrs. Cleveland's daughter, Mrs. Harold Marriott.

George Wiggins employed at the Engine house started Monday on his annual vacation trip and will visit the Allagash region doing some hunting before he returns.

Announcements have been received in Houlton of the marriage of Vera Bernice Raymond of Boston and Richard Bagley Ludwig son of Mr. and Mrs. L. O. Ludwig of Houlton, which took place on Saturday Sept. 1, 1923.

Houlton friends of Helen Buzzell now Mrs. Wilfred Schaffner of Marion Ohio will be pleased to learn of the birth of a daughter who arrived at her home Tuesday October 16th and who is to be known as Helen Louise Schaffner.

There will be no service at the Congregational church on Sunday morning, but there will be a meeting on Sunday evening in the church to consider calling a pastor for the church at which time every member who is interested in the welfare of this church is requested to be present.

Mrs. T. S. Robinson of Sherman Mills is in town for a few days with friends, a trip from Little Spring Brook, on the East Branch, to the dam on Grand lake, along the old tote road in one day I actually counted 79 partridges, seven deer, one bear, two moose and two rabbits. This is mentioned as showing how numerous the game is in this section.

Mr. David Soderquist, the talented baritone and director of the Houlton Male Musical Society, is contemplating coming to Presque Isle two days each week to conduct a class in singing. Incidentally, this could afford opportunity to organize here a singing society under Mr. Soderquist's direction and it is recommended to some of our local organizations as a very desirable thing to do.—Star Herald.

MARRIED IN WOODSTOCK SAVAGE-RUTH

On Thursday Sept. 27th, 1923 at the Methodist Parsonage by Rev. John T. Cavers, Mae Elsie Ruth, daughter of John and Mrs. Poplham was united to Harry Lawrence Savage of Houlton, son of Herbert and Mrs. Savage. (Woodstock Press)

FIRST UNITARIAN CHURCH

At the morning service next Sunday Rev. George S. Cooke will preach on the subject: "Religion, Medicine and Auto Suggestions," with special reference to the teachings of Emile Coue.

To the young people Mr. Cooke will preach on the 7th Beatitude.

A cordial invitation is extended to attend these services.

CONGREGATIONAL CHURCH

Rev. David L. Yale of Newport, N. H. preached at the Congregational church on Sunday morning and his hearers were much pleased with his address as well as his appearance. It is expected that a call will be extended to him to become pastor as a meeting has been called for Sunday evening next at 7 o'clock.

Prof. David Soderquist sang a solo at the morning service and it is hoped that he will be in charge of the music in the church for the winter.

FRANK L. CAMPBELL

Frank L. Campbell well known by many friends in Houlton where he has lived since his birth 34 years ago, died Sunday Oct. 14th at the Aroostook hospital after a brief illness.

To his mother, Mrs. Margaret Campbell, his brothers, Walter, Bolton, and George, his sister Mrs. Rose McFarlane, the deepest sympathy of many friends is extended.

Funeral services were held Tuesday afternoon from his mother's home on Grange St. and were conducted by Rev. F. Clarke Hartley, burial being made in the family lot in Evergreen cemetery.

SERIOUS ACCIDENT

Miss Lula Carr of this town had the misfortune to break her ankle Sunday afternoon when she jumped from the horse she was riding to the ground.

Miss Carr and another young lady had ridden out the White Settlement road and were returning to town by way of the Harkins road when the horse that Miss Carr was riding became frightened of some small boys beside the road and began to act badly.

Miss Carr being unable to control the horse jumped to safety and in doing so broke her ankle.

She was immediately taken to the Aroostook hospital and it was found that the break was a very serious one being a compound fracture.

MRS. FRED FAULKNER

It was with sorrow that the friends of Mrs. Fred Faulkner learned of her death which occurred at the Aroostook hospital Saturday, Oct. 13th after an illness of three weeks, at the age of 37 years.

Mrs. Faulkner was Miss Barbara Dickson before her marriage. She was a devoted wife and mother and will be greatly missed in the home besides among a large circle of friends and relatives.

She leaves besides a husband and eight children, a father, Daniel Dickson, four brothers and two sisters.

Funeral services were held from her late residence on North street Monday afternoon and were conducted by Rev. A. M. Thompson. The many floral offerings were mute evidence of the love and esteem of friends. The bearers were Geo. B. Niles, Dr. C. B. Bonn, Prof. Putnam and James Purdy.

D. A. R.

On Monday P. M. at the colonial home of Mr. Frank Peabody, Court St. the D. A. R. held a pleasant and profitable meeting.

Many guests were invited to listen to Col. Frank Hume, the speaker of the afternoon, who told of the many hardships experienced by Maine soldiers in the recent war. Col. Hume also spoke heartily in favor of preparedness for war as opposed to the peace program of recommending physical training for boys in our schools.

The business meeting was held in an adjoining room at the beginning of the afternoon and Miss Anna Barnes was appointed chairman of the general committee. A bridge party will begin soon, and the committee appointed to take charge of this is Mrs. Gertrude Skillin, Ernestine Davis, Fanny Peabody, May Cleveland, and Frances Richards.

At the close of the program tea and cake were served.

W. C. T. U.

On Thursday afternoon Oct. 11th the W. C. T. U. met at the home of Mrs. Geo Small on North St. The meeting was opened by the president Mrs. L. L. McLeod who led the devotional service and after several business matters were discussed the reports of the State Convention held in Pittsfield were given.

This convention was very interesting and nearly 200 delegates were present the largest number for several years.

A banquet was served by the ladies of Pittsfield the guests of honor being Mrs. Althea Quimby, state president, Miss Anna A. Gordon, president of world and national W. C. T. U., Governor Baxter, Miss Charlotte Fraser, field worker for National Americanization and Miss Edith Porter lecturer and organizer for state of Maine.

Delegates from Houlton union were Mrs. L. L. McLeod, Mrs. C. P. Barnes, Mrs. Geo McNair and Mrs. Geo Small.

These delegates gave very interesting reports to the large number present who did not have the privilege of attending the convention.

POTATOES

Local buyers are paying \$1.85 per barrel.

Beautiful weather still continues and the farmers are all taking advantage to finish their digging. The yield is very high and in some cases they have run as high as 180 barrels to the acre.

The Produce News says:

The cooler and more favorable weather has imparted a slightly better tone to the market especially in producing sections, but the local demand was without much improvement, prices remaining about steady at last week's figures. The stock coming from both Long Island and Maine was invariably in 150 lb. packages, and other measures were generally limited to special orders.

Maine Cobsers were somewhat neglected and sold \$2.75 per 150 lb. bag. Some of the more select brought \$3.10, but where the stock ran large and hollow, it was difficult to exceed \$2.75 per 150 lb. bag. Maine Green Mountains cleared at \$2.25 per 150 lb. bag, with some sales at \$3. The 165 lb. bags sold \$1.90 per 150 lb. bag, and a few lots in 150 lb. bags, bulk, worked out at \$1.35 to \$1.50.

Long Island cleared at \$3.85 on 150 lbs., while the other measures ran \$1.50 per 125 on 165 lb. sacks, and up to \$1.50 per 150 on 150 lb. Green Mountains. Long Island Cobsers had to go \$3.00 per 150 lb. bag. The few lots of state and Pennsylvania stock coming were rarely graded closely enough to exceed \$2 per 150 lb. bag. Shipments from Jersey sold \$2.75 per 150 lb. bag, and \$2.50 per 150 lb. bag on the long kind in 150 lb. bags.

MR. WILLIAM M. ILROY

Mr. William M. Ilroy passed away at the home of his daughter, Mrs. C. Allen Smith, on Wednesday evening, Oct. 10th, at the age of 84 years. Mr. Ilroy was taken ill on Thursday last but had recovered sufficiently to be down stairs, expecting to be out in a few days, but death came suddenly while talking to Mrs. Smith on Wednesday night. The deceased was eighty years of age and was born at Northampton afterwards moving to Houlton, Me. where he lived for a number of years. For the past few years he has resided with his daughter Mrs. Smith.

He leaves to mourn their loss a son, Mr. William M. Ilroy, Jr., and a daughter, Mrs. C. Allen Smith, and one daughter, Mrs. C. Allen Smith, and one daughter, Mrs. C. Allen Smith.

Services were held at the residence of Mr. and Mrs. Smith on Thursday evening, at eight o'clock, conducted by Rev. J. T. Cavers and the body was taken to Houlton this Friday morning, where services were held in the Methodist church, Rev. A. E. Luce officiating and interment took place in the cemetery there.

Mr. M. Ilroy was a man who was held in the highest respect by all who knew him and his friends will have the sympathy of all at his passing.

Mr. M. Ilroy lived in Houlton for many years and worked at his trade of a cabinet maker, having a reputation of turning out the best work possible. He was an active member of the M. E. Church and had many friends who regret to learn of his death.

YANKEES WIN WORLD'S SERIES FOR 1923

The Yankees as the New York American ball team is familiarly known have upheld their reputation as a heavy batting team by winning the World's Championship for 1923.

Going into the fray against the Giants, winners of last years pennant piloted by the veteran McGraw, the betting was almost evenly divided, the Yankees having a slight odds on account of their superb pitching staff.

Following is a synopsis of the results, and the carving of the "melon."

SERIES NUTSHELL			
Standing			
	Won	Lost	P.C.
Yankees	4	2	.666
Giants	2	4	.333
FIRST GAME			
Yankees	5	8	"
Giants	1	12	"
SECOND GAME			
Yankees	4	10	"
Giants	2	9	"
THIRD GAME			
Yankees	1	4	"
Giants	0	6	"
FOURTH GAME			
Yankees	8	13	"
Giants	1	13	"
FIFTH GAME			
Yankees	8	11	"
Giants	1	3	"
SIXTH GAME			
Yankees	6	5	"
Giants	1	10	"

"THE MELON"
The greatest prize ever fought for in a world's series, \$368,750.01, will be decided among the players of six major league clubs. Seventy-five per cent of this amount will be divided on a 60-40 basis, among the Yankees and Giants, the winning club getting \$165,952.37 with \$119,643.91 to the loser. Approximately the share to each winning club player will run around \$6,500 for full share, and about \$4,500 to each losing player.

The remaining 25 per cent of the total player's share will be divided among the second and third place clubs. This will give each Red and Tiger between \$1,000 to \$1,100 and the Pirate and Indian players between \$600 and \$700 each.

The total amounts going to the players from the first four games which are the only ones in which they share follow:
Total share \$368,750.01
Winning team 165,952.37
Losing team 119,643.91
Second place teams each 27,652.73
Third place teams each 18,499.15

POTATO GROWER'S EXCHANGE

Carleton, Maine, October 12. The Maine Potato Growers' Exchange entered upon the second month of operation with the organization functioning in a very marked degree.

By the Manager Book, through his arrangement with Boston New York and local banks has placed in the hands of the growers a letter and a check for \$10,000.

It is a fact which is one of the first objects of the potato grower's exchange is to own commodity, has been added to the growers for the first time by the history of the industry to finance his digging operations without being forced to sell at a price which he never accepts even though he is satisfied in his own mind that a better price should be paid.

Members of the Exchange are no longer at the mercy of the man who becomes panicky and dumps.

The Exchange has also had the effect of stabilizing the market, which has reacted in favor of the non-member, in that through orderly marketing the tone has been higher, benefiting all concerned.

The Warehousing and Transportation Department report most excellent progress in systematizing the general plan for handling the movement of 15,000 cars of potatoes.

A survey made by directors of the various districts for the purpose of arranging for warehousing was based on a normal yield. Seasonal and climatic conditions have been such that a much larger crop is now in the process of harvesting than was expected. The Warehousing Department anticipated such conditions and have secured 10 per cent additional storage than was indicated as needed by the preliminary warehousing survey. Arrangements have also been made so that full information is furnished the Federated Fruit and Vegetable Growers, Inc. as to grade, condition, quality of cars to be shipped forty-eight hours in advance.

The Federated Fruit and Vegetable Growers continue to render the excellent distribution service as provided with early shipments. Members of the Maine Potato Growers' Exchange are no longer rolling cars to Boston to be dumped into vortex as of old.

The day of the potato growers has most certainly dawned with a bright outlook. A certain length of time will be required before all may become adjusted to the new method of doing

business. Most excellent cooperation has been evident on the part of business interests who are doing business with members of the Exchange.

Over 7000 acres, which was under crop mortgage, has been assigned. Other interests having obligations have cooperated to the fullest extent, with members until distributions might be received from the various pools.

News From Island Falls and Patten

ISLAND FALLS

Mr. B. F. Coburn of Kingman was in town the past week calling on old friends.

Lloyd Wilkins who has been employed in Akron, Ohio, has returned to his home here.

Mrs. Albert Paul is spending the week in Woodland the guest of her son Hilbert Paul.

Mrs. Ada Rigby was obliged to enter the Bangor hospital this week for surgical treatment.

Messrs. Delmont Emerson and Howard Smith are business visitors in Boston this week.

Mrs. Cora Putnam and Dr. Potter of Houlton were in town to attend the meeting Sunday night.

Mrs. Bessie Sherman, Harding St. has taken the Turner Agency for all the leading magazines.

Mrs. Porter of Houlton was the guest of her daughter, Mrs. Geo. Thorne for a few days this week.

The farmers are making the most of the good weather and the potato crop is being harvested rapidly.

Harry Belyea had the misfortune to cut his hand very badly while sawing wood at his home Friday night.

Mrs. Burns Smuggling of Woodstock N. B., has been the guest of Mrs. Ralph Armstrong for a few days.

The Friendship Club met Thursday with Mrs. Rena Daggett and the work for the afternoon was tacking a puff.

Mr. and Mrs. T. R. Donham have moved from the Mooney rent to a rent in the house of Mrs. Chas. Perry Harding St.

Mr. and Mrs. Nat Raymond of Patten were Sunday guests of Mr. and Mrs. Cullen Brittan at their home on Barker Ridge.

Dr. Leon Geo. Banton was in Presque Isle Wednesday, Oct. 10 to attend a meeting of the Aroostook County Medical Association.

Partridges are more plentiful in this vicinity than they have been before for years and all the local hunters are getting their share.

Gladys Dunphy was a passenger on the train Tuesday for Brewer where she will be the guest of her sister Mrs. Faye Williams for a few days.

Mrs. Jennie Caird and daughter Louise returned Wednesday from Calais, where they had been the guests of relatives for a short time.

Mr. and Mrs. Clyde Drew were in Presque Isle Sunday, Oct. 7th to visit their daughter, Dorothy who is a student at the Aroostook Normal School.

In the absence of Rev. T. B. Hatt Sunday Oct. 21, the pulpit of the Congregational church will be supplied by Oscar Smith principal of the high school.

Miss Lucy Shean who has been a patient at the sanatorium at Presque Isle has been discharged from that institution very much improved in health.

Miss Edna Walker who has been spending the last three weeks in town left on the morning train Friday for Augusta where she expects to spend the winter.

Waldo P. Gellerson has been chosen to serve on the Grand Jury and C. H. Pomeroy on the Traverse Jury at the Supreme Court which will be held in Houlton beginning Nov. 20.

Mr. O'Connell representing the Balfour Co. of Attleboro, Mass., was in town last week and while here took an order from the Junior class of the high school for their class rings.

Mr. and Mrs. Melvin Leslie, Miss Lucile Anderson and Grace Brown left by auto Thursday for Bangor and Brewer where they will spend a few days with relatives and friends.

Mr. and Mrs. H. C. Pettingill and Mrs. Geo. Donham motored to Orono and Bangor one day this week. At Orono they called on the Herbert Pettingill who is a student at U. of M.

Mrs. Joseph Webber has been in Millinocket two weeks helping to care for her mother who passed away Oct. 8. Mr. Webber and Dewey Webber were in Millinocket to attend the funeral.

W. H. Palmer and wife, Mrs. Decatur and Miss Foster of Malden, Mass., are guests of Mr. and Mrs. Geo. Palmer at their Pleasant Pond cottage for this week. Later they will go to camp at Mattawamkeag Lake for the hunting.

Father Frazier who for several years has been the pastor of the Catholic Church here has been removed to the church in Hallowell and Father Frawley formerly of Oldtown has assumed charge of the church here.

Mr. and Mrs. Wm. Dumont and son Wm. Jr. and Mrs. Martin Duff of Lancaster, N. H., were dinner guests at their cousin's Guy McKenzie's Tuesday, Oct. 9. They were motoring through from their home to Woodstock, N. B.

Mr. and Mrs. Ernest Bowker of Portland have been recent guests of Mr. and Mrs. F. L. Mooney and with them made a trip through the northern part of the county going to Fort Kent by way of Presque Isle and returning by way of Portage and Ashland.

Now is the time to begin to make plans to attend the fall Chautauqua which will be held here Nov. 3, 4, 5, and 6. This is the best thing in the way of entertainments that we have for the year and we cannot afford to miss it. A very pleasing program is to be presented each day.

A special meeting of the Katahdin club was called by the president, Mrs. Bertha Mooney at her home Thursday afternoon, Oct. 9. Plans for the year's work were discussed and Mrs. Mooney gave a very interesting report of the State Federation of Women's Clubs which she recently attended in Bar Harbor. The first regular meeting of this club will be held Oct. 16 with Mrs. Sadie Brittan.

On Sunday afternoon Sept. 14, Rev. T. B. Hatt will leave here by auto in company with Rev. Mr. Hunt of East Millinocket and Rev. Frederick Parker of Sherman for Springfield, Mass., where they will attend the National Council of Congregational church which session will last eight days.

Mrs. Alice Bryant has a very interesting family of canary birds at her home on Sherman St. The family is made up of twenty-seven members. They are giving a continual concert and many fine voices are heard. Mrs. Bryant has made quite a study of bird raising and has been very successful in her work.

Glenard Tinkley better known as Buster, son of Mr. and Mrs. H. G. Tinkley while playing near the river in the vicinity of the Northern Woodware mill Saturday morning found a mud turtle nest that contained thirty little turtles. They were about the size of a silver dollar, but were perfectly formed, even to the shell and were extremely lively.

The members of the Eastern Star with their husbands enjoyed a most beautiful picnic in the dining room of the Masonic Hall, Wednesday evening after which the regular monthly meeting and one candidate, Mrs. Irma Schoebel was initiated. At the next regular meeting the chapter will be visited by the district inspector, Mrs. Marcella Hind Gibson of Washburn. A picnic supper will be served at six o'clock.

Mrs. Alice McKenzie was pleasantly surprised on Friday evening when a party of relatives came in and spent a social evening. Games were enjoyed and delicious home made candies and cornballs were served. The occasion was Mrs. McKenzie's birthday. Those present were Mr. and Mrs. Fred Walker, Mr. and Mrs. Carl Edwards, Mr. and Mrs. Russell Brown and daughters Rita and Eva and Mr. and Mrs. J. H. Lurvey.

People who have lived to the age of eighty four years as has Mrs. Orissa Dodge, mother of Mrs. T. B. Hatt of this village have seen some change in the methods of sending communications from one part of the country to another. She recalls the wonders of the early telegraph and telephone and one evening recently she sat at the radio in a neighbors home and heard distinctly messages and music from several eastern cities.

The first regular meeting of the Pine Needle Club was held with Mrs. Margaret Crabtree Tuesday afternoon Oct. 9, at which time Geo. H. Donham Sr. of this town gave a very helpful and interesting talk on the 48 hour law. Mrs. Bessie Sherman read a paper on the Louraine University in Belgium. The meeting was presided over by the new president Mrs. Doris Emerson who appointed the following chairmen of the various committees to serve on Reciprocity Day which will be observed by this club Oct. 22.

Music Com., Mrs. Agnes Smith; Decorating Com., Mrs. Laura Scribner; Entertainment Com., Lida Banton; Refreshment Com., Nora Caldwell.

A union meeting was held Sunday night Oct. 7 in the Congregational church in the interests of the work of the Red Cross. The following program was carried out. Singing America; Rev. T. B. Hatt read the Scripture; and Rev. W. P. Richardson offered prayer, following which there was a recitation by Floyd Prince and one by Graham. A very pretty exercise of the Red Cross given by four girls.

The address of the evening was given by Hon. Chas. Barnes of Houlton and was very interesting. Mr. Barnes opened his address by giving comparisons between the home and community life of from fifty to seventy-five years ago to that of the present day. Carrying the thought along to the work of the Red Cross and gave many instances some of them in nearby communities where the Red Cross had been of much benefit and closed his remarks with a strong plea for all to renew their membership. The meeting was in charge of Miss Eva Seates of Fort Fairfield who is working in Southern Aroostook in the interest of the Red Cross. At the close of the meeting, Miss Seates appointed the following women to canvass the town for new members: Laura Scribner, Nora Caldwell, Geneva Emerson, Harriet Mair, Meda Brooks, Margaret Crabtree, Grace Lurvey. Miss Seates visited the schools Monday and spoke to the scholars on the work of the Junior Red Cross.

At the time of the recent earthquake in Japan it was not known by many people here that one of our own town girls was in Tokyo at that time. I refer to Mrs. Ruth May Leird oldest daughter of Mr. Leird May of this town. Soon after her graduation from school here Miss May went to New York where she trained for a nurse and about four years ago went to the Pacific coast where she has since made her home. This summer she started out to make a trip round the world and had reached Japan and her father had received one letter from here there and naturally when he read of the disaster he was much concerned but his fears were relieved by receiving a letter from her dated Sept. 5. She describes the experiences she has been through as the most dreadful that could be imagined, but considers herself fortunate in that she escaped alive and was able to save her belongings. She writes that but for the American Government that they would have starved after escaping from the fire. She says words cannot describe the condition of southern Japan. Millions of dollars lost, 150,000 people burned alive, millions of city and country burned over. Mrs. Leird left the hotel at the first shock, but went back later to get her belongings and in two hours the hotel was consumed by fire. Mrs. Leird was leaving on the date that she wrote for

Shanghai, China thinking that perhaps she would remain there for the winter.

Mrs. James Webb

Mrs. James Webb of Oakfield whose death occurred Sept. 24, 1923 was before her marriage Mary Edminister of Dixmont, daughter of the late Daniel and Esther Edminister. When a young woman she came to Ludlow to keep house for her uncle and later married James Webb of Ludlow. Mr. Webb had three children by a former marriage, John of Island Falls, Wm. who now resides in Idaho and Ida now Mrs. Doran of Fort Fairfield.

When Mrs. Webb went into this home she took the place of a mother to these children in every sense of the word and they in turn grew to love and respect her. Three children blessed her union with Mr. Webb, Sidney of Island Falls, Daniel of Oakfield and Rebecca now Mrs. Tidd of Oakfield. These two families united in giving the mother during her long life every care and attention that was possible. Special mention should be made of her son Daniel who through the last week when his mother was suffering so intensely all the time took almost the entire care of her. Mrs. Webb seemed to prefer it and he willing and glad to do it for her.

Mr. Webb's death occurred about 14 years ago in this town where they had lived for a few years. Since Mr. Webb's death Mrs. Webb had made her home for the most part with her son Daniel of Oakfield. Mrs. Webb was one who had found a good many hard experiences in life but had met them all cheerfully. From a young woman she had been a very hard worker and she was a home lover, happy in the care of her family, but always willing to help others as the need came. Wherever she had lived she always made many friends. She had reached the age of 86, but until the last year had been able to attend to the household duties in her son's home.

Funeral services were held at the home of her daughter, Mrs. Tidd of Oakfield when Rev. Mr. Whittier of Oakfield spoke words of comfort to the family which was much appreciated as was the beautiful singing by the quartette.

Those from out of town to attend the funeral were Mr. and Mrs. Sidney Webb, John Webb, Mr. and Mrs. Vinal Webb of Island Falls; Mrs. Ida Doran of Fort Fairfield; Mr. and Mrs. Pinkham of Fort Kent; Mr. and Mrs. James Webb, Mr. and Mrs. Lyman Webb of Ludlow; Howard Webb of Houlton all relatives of the deceased and John Taggart of Houlton, a life long friend.

Burial was in Evergreen cemetery Houlton where her body was laid beside that of her husband.

PATTEN

Dr. Brown is at home and able to be down town.

Mr. Wallace Tozier is confined to his home with a broken limb.

Mrs. John Robbins spent the week end with friend sat Van Buren.

Mr. and Mrs. D. B. Howe and Mrs. Mary Howe motored to Ashland Sunday.

Mr. Floyd Davis principal of the grammar school is quite ill at this writing.

Mr. and Mrs. Frank Price are receiving congratulations on the arrival of a young son.

Houlton High School and Patten Academy play foot ball at Patten Thursday afternoon.

Mrs. Mary Hall and Mrs. Mabel Crommett spent Wednesday afternoon with Mrs. Thomas Drew.

Mrs. Edna Doble was in town Thursday called here by the death of her uncle, Mr. Temple Wiggan.

Mrs. Dyke Howe spent a few days in Houlton, as guest of her parents, Mr. and Mrs. Phillip Mansur.

Mr. and Mrs. George Parvis spent a few days at Presque Isle as guests of their daughter, Mrs. Edna Doble.

There is to be a social and dance at the Grange Hall Thursday evening for the benefit of Patten Academy.

Mrs. Edwin Hathaway who was called here by the death of her brother, Temple Wiggan, returned home Friday.

Mr. Harry Eaton of Manchester, N. H., is visiting his mother, Mrs. H. M. Brown and his sister, Mrs. John E. Eliot.

Mrs. George Goodrich is away on a motor trip to Rockland with her parents Mr. and Mrs. George Kneeland of Sherman.

Mr. and Mrs. Ralph Miles and daughter, Eleanor and Mrs. Henry Rowe motored to Bangor Tuesday returning Thursday.

Miss Annie Robbins and Miss Dorothy Cunningham spent the week end at Grindstone, guests of Miss Charlotte Robbins.

Mr. and Mrs. J. E. Cunningham and Mr. and Mrs. James King were in Millinocket Sunday calling on friends and relatives.

The Patten foot ball team motored to Lincoln Saturday, Oct. 6 where they played the student of Mattanawcook Academy.

Mrs. W. L. Cobb, Mr. H. M. Tozier, Mrs. J. E. Cunningham and Mrs. James King made a business trip to Houlton Saturday.

Miss Roberts, Miss Cunningham, Miss Robbins and Herbert Robbins motored to Lincoln Saturday for the Patten-Lincoln foot ball game.

Ideal Rebekah Lodge held a regular meeting Tuesday Oct. 2, worked the degree on three candidates and served refreshments after work.

Mr. and Mrs. George Casper former residence of Patten have been visiting friends and relatives for the past week, and are now spending a few days in the Leslie cottage at Shin Pond.

Mr. and Mrs. Randal J. Thurrell of Portland who have been spending a week at Shin Pond in the Philpott cottage returned to their home Saturday Sept. 29.

Mrs. C. S. Grindall and Mrs. Adwina Fairfield were in Bangor October 2. Mrs. Fairfield returned home Thursday, and Mrs. Grindall remained for the Festival.

Sunday was a gala day for Mt. Chase, several parties climbing the mountain. They report all kinds of weather during the afternoon, snow, hail and rain.

Mr. Robinson of Boston gave a very interesting talk to the students of Patten Academy Tuesday morning in regard to the Bentley School of Accounting and Finance.

Having had numerous requests to teach the violin in Patten I wish to say that it fifteen pupils are available I will teach in Patten. Kindly send name to Mr. C. V. Chapman of Patten or direct to me at Houlton. Rudolph Hulten, P. O. Box 330, Tel. 14-5.

The Congregational Sunday School observed Rally Day, Sept. 30, with the following program.

Opening exercises, Primary Department; Prayer, Mrs. L. B. Rogers; Readings, by members of Mr. Rogers' class; Recitation, Freda Hunt; Recitation, Darrell Webster.

The business men of Patten are taking hold of the light question in earnest. The supplies are bought and they expect to have the work under actual construction by the middle of October with fair weather they hope to have the lights ready for use by the first of the new year.

Mr. Temple Wiggan

Many friends were shocked to learn of the death of Mr. Temple S. Wiggan which occurred at his home on Main St. Tuesday morning, Oct. 2. Uncle Temple as he was called leaves to mourn his loss, a wife and one sister, Mrs. Edwin Hathaway numerous other relatives and scores of friends.

The funeral was held from the late residence on Main St. and was conducted by the Masonic fraternity of which he had been a member for years. The sympathy of a very wide circle of friends will be tendered his sorrowing family.

SHERMAN MILLS

Mrs. F. A. Ambrose motored to Houlton Saturday with her family.

Mr. Asa Adams, principal of S. H. S. spent the week end in Linneus.

Jane Lewis Hersey has purchased a new Hudson Coach motor car.

Malcolm Parker has again taken up his studies at Bowdoin College.

Mr. and Mrs. B. B. Bragdon and Mr. and Mrs. Ed Bragdon went to Houlton Wednesday.

Mr. and Mrs. George York of Island Falls were calling on friends and relatives here Saturday.

George Gosnell has returned to his work in Portland after having spent a few weeks with his family.

Mrs. I. R. Clark of Oakfield is the guest of her daughter at the home of Mr. and Mrs. W. T. Spooner.

Rev. Frederick Parker left Monday for Springfield Mass., to attend the National Council of Congregational Pastors.

Joe Curtis who was so unfortunate as to break both bones in his left arm while jumping a week ago, is able to be out again.

Mr. and Mrs. W. T. Spooner, Louise Clark, Mrs. I. R. Clark and Ida M. Stevens motored to Woodstock Saturday in Mrs. Spooner's car.

Albion Hamilton who has been employed carpentering in Sanford is home for a few weeks. He made the trip in his Allen Roadster.

Mr. and Mrs. George O'Roak, Mrs. Mary McMullen and son Rodney of Macwahoc were guests of Mr. and Mrs. Jerry O'Roak Sunday.

Mrs. David George of Orono has returned to her home after having visited three weeks with her daughter, Mrs. Millie Bowers.

Mr. and Mrs. Merle Hamilton of Derby were in town Sunday. Mrs. Hamilton will remain for a visit with her mother, Mrs. Annie Gallison.

Mr. and Mrs. W. O. Kincaid of New York who have been boarding the past week with Mrs. Annie Gallison left for Howe Brook on a hunting trip.

Mr. and Mrs. Hobbs, Mrs. Alice P. Burnham and Mrs. Jennie Merriam arrived at the home of Dr. and Mrs. Harris, Saturday night for a week's hunting.

Ralph Buzzell who has been critically ill of pneumonia at the home of Lawrence Morgan, is improving and it is hoped that he will have a speedy recovery.

Mr. and Mrs. John Quigley and two children and Mrs. Michael Gillespie motored from Houlton and were recent guests at the home of Mrs. Lillian Gillespie.

The town hall was crowded Saturday night. The pictures "Quincy Adams Sawyer" and the vaudeville entertainment by Billy Kincaid were the great attractions.

Mr. and Mrs. James McLellan of N. B. Mrs. Lillian Wilson and three children, Sam, Ruth and Roderick of Houlton were guests Sunday of Mr. and Mrs. B. B. Bragdon.

The many friends of Mrs. Delmont Emerson who underwent a serious surgical operation at the Madigan hospital three weeks ago, will be glad to know that she is satisfactorily improving.

Miss Azula Stubbs, daughter of Mr. and Mrs. Wilton Stubbs is taking a Stenographers course in Springfield Mass. She graduated with honors in the Sherman High School with the class of '23.

The Ladies Sewing Circle of the Congregational church met in the vestry Wednesday for dinner with Mrs. Nina S. Joy, Mrs. Lulu Caldwell, and Mrs. Luanna Maddocks. Seventeen dollars and fifteen cents was received for dinners.

A Range with a Double Service

MAGEE Electricoal

Electricity for Summer
Coal for Winter
Both at Any Time

All in one compact range that is only 46 inches long.

The highest-grade coal range that experience and good workman can produce, four cooking holes and a large oven which is heated on five sides.

The electric equipment consists of three cooking discs (two large and one medium) and an electric oven and broiler that produces the most satisfactory cooking results.

The Magee Electricoal has enormous cooking facilities and yet can be operated in the most economical manner, using such part of it as the occasion requires.

Place an Electricoal Range in your home and you will find it the most satisfactory cooking convenience.

You will never really be satisfied until you own a Magee Electricoal Range.

MAGEE FURNACE COMPANY
BOSTON, MASS.

THE WHAT AND WHY OF EARTHQUAKES

Exactly what is an earthquake and what causes it?

These two questions very naturally pop into the minds of millions of persons when a catastrophe such as that which recently occurred in Japan overtakes some great city and causes thousands of deaths.

A bulletin from the Washington, D. C., headquarters of the National Geographic Society answers these questions.

"Superficially the name itself tells the story. It is no more nor less than a quaking of the earth or a part of it; and theoretically any vibration at all fills the bill, from the tremor caused by a heavy truck passing along the street or a blast in a nearby quarry to the most violent convulsion that slides hills from their bases and opens yawning chasms in the earth.

Earth Waves Hold Secret

"But going beyond the superficial, there is more that needs to be said even by way of a bare definition of an earthquake. The quake in so far as man experiences it is the coming to the surface of waves in the earth. These waves cannot be compared simply to the up-and-down waves of rippled water nor to the back-and-forth waves in the air that make sound. Even the simplest wave motion is

none too easy to understand; and the waves in the varying earth materials that make themselves known to man as earthquakes are probably the most complex waves that exist. They are at once motions 'up-and-down' like sea waves; crosswise like the waves in a flapping flag; back-and-forth like sound waves or the motion in a long coiled spring suspended with a weight bobbing at its end; and in addition may have twists about imaginary pivot lines in all of the three dimensions.

"The earth waves originate in some region down in the earth and start out in every direction. The waves from a pebble dropped into a pond form growing circles on the surface of the water. But the waves in the earth being in a solid, attempt to form spheres that constantly grow outward. Soon, however, because of the difference in the rigidity of different rock materials the form is not a sphere at all but a very irregular curved solid instead, more nearly that of a potato, perhaps.

Two Kinds of Waves

"The two principal types of earth waves, those that travel like the pulsations in a bobbing spring, straight out; and those that travel like ripples and the waves in a flag, with a sideways motion, move at different speeds. The pulsing waves are the swifter, and of course the place where they make themselves felt first

and most strongly is the surface area straight above their starting point. This is technically the 'epicenter' or 'epicentrum.' The pulsing waves around the epicenter alternately push up the surface of the earth and everything on it, and let them fall back. This is done very rapidly, and though the actual rise and fall may be only a fraction of an inch on rocky surfaces or a very few inches on soft soil, the violence may be like that from innumerable tremendous blows, and sufficient to shake down buildings.

"The 'sidewise' waves follow along almost immediately after the first pulsing waves, and the two, with perhaps 'twisting waves' as well, then operate together. The ground in the epicentral area, therefore, gets innumerable thrusts and falls and at the same time is jerked sidewise and back for tiny distances in every direction.

"At points some distance from the epicenter the pulsing waves strike the surface at a slant and so accentuate the effects of the 'sidewise' waves and create new surface undulations. The shaking of the epicenter, too, throws the earth's surface there into undulatory waves like ripples on a pond, and these also travel outward in widening circles. These surface waves are those of the greatest motion but least speed. They register the heaviest vibrations on the seismographs of the world.

How The Waves Start

"The second important question in regard to an earthquake is: What starts the waves?

"No one has ever seen an earthquake wave start outward from its center, and it is safe enough to say that no one ever will. But science has built certain hypotheses about the matter that seem to account satisfactorily for the happenings, and which are accepted pretty generally.

"Hold a dry stick as big as your thumb in your hands and bend it until it breaks. At the snap waves will travel to your hands and usually give you a quite painful sensation.

"Hold an iron bar by one end and strike the other sharply with a hammer. Again the vibrations carried to your hand may be violent enough to produce a stinging pain.

"And if you should strike a small explosive cap with the end of a long rod grasped by the other end, the explosion would probably bring the same painful tingle to your fingers.

Breaks Probably Most Important

"It is generally believed that earthquake waves flow from a point where one of the three forces illustrated is suddenly realized—a break, a blow or an explosion. Breaks are credited with the responsibility for most earthquakes. It is believed that because of slow contraction or shrinking which may result from the cooling of the

outer portion of the earth or because of pressure from deposited silt, strains are set up below the surface lie those in the heading stick. Eventually the strain reaches the breaking point and there is a snapping of the rocks which sends violent waves to the surface, causing earthquakes. This is probably less important. Such a blow might result from the falling in of a great cavern, but probably would cause only a local shiver. A more important cause of a blow might be a slipping of one mass of rock over another with a collision at the end of the slide. Such a blow often follows a break, the two acting together.

Volcanic Explosions Play Part

"Earthquakes in active volcanic regions may often result from explosions of gases far beneath the surface; but it is quite possible that even in the neighborhood of volcanoes the majority of the quakes may arise from sudden breaks in the rocks.

"That the earth's 'crust' is subjected to squeezing and pinching is evident from mountain ranges, which are the portion of the crust that is 'pinched up' as one can pinch up a ridge of sin on his arm. If mountains were ever thrust up at all rapidly the earthquakes at the time must have been terrible. Even now there are certain mountains that though millions of years old, are still geologically 'young' and are slowly rising. The mountains

of Japan fall into this class, and it is their 'growing pains,' so to speak, that cause the almost daily earthquakes in the Japanese archipelago. Now and then the strains accumulate over a considerable period and the break or slide and collision which finally occurs is violent enough to shake down hills, open wide cracks and destroy cities."

Same As Before

"And your friend really married his typist. How do they get on?" "Oh, same as ever. When he dictates to her, she takes him down."

Notice of First Meeting of Creditors
In the District Court of the United States for the Northern Division of the District of Maine. In Bankruptcy.

In the matter of
Alton Williams
Debtor.
In Bankruptcy.

To the creditors of said Alton Williams, at Caribou in the county of Aroostook, and District aforesaid, bankrupt.

Notice is hereby given that on the 9th day of Oct., A. D., 1923, the said Alton Williams was duly adjudicated bankrupt; and that the first meeting of creditors will be held at the office of Edwin L. Vail, in Houlton on the 31st day of Oct., A. D., 1923 at 10 o'clock in the forenoon at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

Dated at Houlton, Oct. 10th, 1923.
EDWIN L. VAIL,
Referee in Bankruptcy.

Take a look at Sporting Goods Windows during Remington Sportsmen's Week October 15th to 20th.

The New Remington Game Loads

Be sure to see them—the biggest advance ever made in loaded shot shells. Produced as the result of important Remington discoveries about powder. There is a Remington Game Load for every kind of game in this locality. Each one is loaded to give **safe and uniform** velocity, pattern and penetration—the **right shooting quality** for that particular kind of game.

The load pictured above is the **Remington Heavy Duck Load**. It comes in 12-gauge with either No. 4, 5 or 6 Shot and in 20-gauge (the hard hitting 2 3/4" shell) in No. 6, 7 or 7 1/2 Shot. The velocity, pattern and penetration are **right** for big ducks, and for **long range** shooting when they are flying high. **Sure and safe!**

Remington Game Loads are loaded in the famous Nitro Club **Waterproof** Shells. Here is the complete list:

DUCK LOAD	RABBIT LOAD	SQUIRREL LOAD
HEAVY DUCK LOAD	QUAIL LOAD	SNIPER LOAD
GOOSE LOAD	GROUSE LOAD	DOVE LOAD
BUCK SHOT LOAD	TRAP LOAD	

Powder varies—Remington Game Loads do not!

Remington Metallics

The first successful metallic cartridges ever made were produced by Remington 65 years ago. Practically every betterment in rifle and pistol ammunition has been invented and developed by Remington. **Dependability and accuracy** make Remington Cartridges outsell all others.

Remington Hi-Speed Rifle Cartridges
In .25, .30 and .32 calibers for nearly every standard rifle. Flat-trajectory, greater accuracy, and killing power never before approached.

Remington .22 Long Rifle "Palma" Cartridges
Beyond question the most uniform small bore ammunition ever developed. The super-accurate .22 long rifle cartridges.

Remington Lesmok .22 Longs and .22 Shorts
With the new Remington primer. Developed to give the owner of the .22 a dependable sure-fire load.

Sportsmen's Knives

Your dealer is showing a variety of Remington Pocket Knives especially designed for hunting and camping use—two of them illustrated here. The finest pocket knives made today—worthy of the name "Remington."

Remington

THE AUTHORITY IN FIRE ARMS, AMMUNITION AND CUTLERY

CANAL AT GRAND FALLS CONSIDERED EIGHTY YEARS AGO

Would Aid Navigation and Also Prevent Destruction of Much Lumber

The province looks today to Grand Falls as the possible centre of a hydro-electric development which would link it up with smaller water-powers east and south, and eventually girdle and gridiron the whole province with transmission lines for electric energy.

It is interesting to recall that eighty years ago Grand Falls figured the Lieutenant-Governor of New Brunswick and the Home Government, in relation to a canal which it was proposed should be constructed, in order to assist navigation and avoid the destruction of pine timber floated over the falls. We find a letter from Sir William Colebrooke, Lieutenant-Governor, to Lord Stanley, Colonial Secretary, in the year 1844, the following reference.

"I beg to draw Your Lordship's attention to the fact stated in Mr. Allan's report, that fifteen per cent of the timber cut on the upper country will be lost from destruction in passing over the Grand Falls. The whole quantity cut in the present season has been estimated at 100,000 tons, which at thirty shillings a ton would make the loss amount to £22,500, and at twenty-four shillings, £18,000; and which would be saved by opening the canal at the Grand Falls, which I understand it is in the contemplation of the Military Authorities to effect, but the expense of which would be easily defrayed by a tax or toll on the timber passing through the canal."

At that time a military road from River du Loup by way of Temiscouata (Grand Falls, Boissetown and the Bend (now Moncton), to connect with the road from St. John to Halifax was projected, thus connecting the latter cities with the St. Lawrence by a great highway. One of those engaged in this survey was Lieut. Simmons, R. E., and in a letter to Sir William Colebrooke, dated at Fredericton, Oct. 28, 1844, he made his reference to the proposed canal at Grand Falls:

"There would be no difficulty, in an engineering point of view, in constructing this canal, which I should imagine need not be of a very expensive nature. Its length, about half a mile, would require a lift by lockage of 120 feet; but it is to be remembered that it would be only necessary of a narrow construction, suited to the boats and navigation of the river. Undoubtedly the revenue would be large in proportion to the outlay, as the amount of damage done to private property of allowing the timber to pass over the falls amounted in this year alone to at least £15,000, besides which the expense of portaging each boat and cargo by land is enormous. As an instance, each boat cost £5 to £10 and each barrel of flour, 1s. 3d., and proportionately for other goods; and these not including inconvenience from loss of time."

The canal was never constructed, but Grand Falls was not solely dependent upon that enterprise to attract attention. Lieut. Simmons pointed out to Sir William Colebrooke that because of its central position this place was decidedly advantageous as a location for warehouses and depots for the supply of workmen and settlers. He said further:

"A finer soil for agricultural purposes does not exist than that extending for miles around the Grand Falls on all sides, but more particularly on the east or left bank of the River St. John, with abundance of water power and convenient mill sites, added to which the vast amount of traveling and great outlay of private funds annually expended by the lumbermen on the upper St. John and to tributaries, in portaging or hauling all their sup-

plies past the falls, with the enormous demands for agricultural produce to feed their parties of men and cattle, while pursuing their business in the forest, would secure to the agriculturist a certain and safe market for his produce, for want of which the lumberman is now subjected to enormous taxation in boating to procure his needful supplies."

In 1844 only pine timber came over the Grand Falls. Spruce was not considered worth taking while the pine was available, and of hardwood Lieut. Simmons says that while it was abundant the belief prevailed that such heavy timber would not float after making the plunge over the falls. Of the spruce forests he says:

"Vast quantities of spruce fir, which grows to a great height and very free from limbs, is of a tough and durable nature, and which will be exceedingly valuable after the more stately and handsome pine shall have been removed, are to be found on all the streams with which this country abounds."

Not only the pine but the heavy spruce to which Lieut. Simmons referred, are gone from the area of which he wrote. Already, in 1844, the rapid disappearance of the big trees was foreseen, and it is interesting in this later day, when forest conservation has become a grave national consideration, to read of the reckless wastage of eighty years ago. In one of his letters Lieut. Simmons wrote:

"In traveling through the lumber woods of New Brunswick it has been with much regret that I have witnessed the sinful waste of large timber, caused by the improvident habits of the lumbermen, who throw down the largest trees, in which it is not uncommon to find a slight shake or little imperfection near the root. They then ascertain, by cutting into the tree, where this imperfection ends and cut it off. They next remove the top, below the first branch, or where there may be some fault, according to the lumberman's notions, who only wishes to make a handsome stick, as he terms it, and perhaps taking twenty or thirty feet from the main body, rejects the remainder of a tree, generally 120 feet long, leaving that to rot on the ground, which in fact

This is an immense quantity of the consists of the best of the lumber, most valuable article of trade in the province, and one of the most useful to mankind, wilfully and wantonly destroyed yearly, in some cases of a single tree amounting to as much as would make three or four thousand feet of the best and most beautiful boards."

The writer adds that many trees were felled, and because there was some slight fault, almost amounting to caprice on the part of the lumberman, were left where they lay; and he makes this further comment:

"All this waste takes place in the heart of a country blessed with an extent of water power and abundant sites for mills hardly equalled in the world, and which by giving employment to the lower orders would thus secure to the country the riches which would ensue from that which is now destroyed to such sinful extent. Moreover, it should be remembered that in a very few years the whole of the lumber as now cut in the province will be exhausted, and it is then that the loss of this principal article of trade will be most severely felt."

We may be disposed to smile at Lieut. Simmons' complacent allusion to the "lower orders", but these were doubtless native-born New Brunswick folk in those days of special privilege, before the battle for Responsible Government had been won who would be disposed to use the same phrase. Aside from that, his prophecy has already been fulfilled, for the great stands of pine are gone, and the big spruce is ever receding from the mill, which follows it farther and farther up the streams and into the wilderness. The railways make this more easy, and they have undoubtedly been

Notice of First Meeting of Creditors
In the District Court of the United States for the Northern Division of the District of Maine. In Bankruptcy.

In the matter of
Nancy Bonchard. In Bankruptcy.

To the creditors of Nancy Bonchard, of Carleton in the county of Arctostook, and District aforesaid, bankrupt.

Notice is hereby given that on the 19th day of Oct., A. D. 1923, the said Nancy Bonchard, once duly adjudged bankrupt, and that the first meeting of creditors will be held at the office of Edwin L. Vail, in Houlton on the 21st day of Oct., A. D. 1923, at 10 o'clock in the forenoon at which time the said creditors may attend, prove their claims, appoint a trustee to examine the bankrupt and transact such other business as may properly come before said meeting.

Wherefore, He prays that he may be discharged by the Court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 2nd day of October, A. D. 1923.

JAMES AUGUSTUS KILLEY, Debtor.

In the matter of
James Augustus Killey. In Bankruptcy.

To the Hon. John A. Peters, Judge of the District Court of the United States for the District of Maine.

JAMES AUGUSTUS KILLEY of East Fairfield in the County of Arctostook, and State of Maine, in said District, respectfully represents, that on the 14th day of October, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said Acts and of the orders of Court touching his bankruptcy.

Wherefore, He prays that he may be discharged by the Court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 12th day of October, A. D. 1923.

ISABEL SHEEHAN, Debtor's Clerk.

responsible for many forest fires! and now, what with the saw, the pulp-mill, the fire and the bud-worm, the condition is such that a tree which would "make three or four thousand feet of the best and most beautiful boards" would be a bonanza to the lumberman. Concluding his comment on the conditions as he saw them in 1844, Lieut. Simmons said:

"The only excuse that can be offered by mills are not constructed on the upper St. John is the difficulty of conveying small lumber, such as boards, batten, etc., between the upper and lower St. John, and which likewise operates in preventing spurs for shipping from being sent to the market. Any legislation, therefore, for preventing this destruction, would appear in some measure to depend on the navigation of the St. John being improved; and these remarks further impress on the Government the necessity of a canal at the Grand Falls."

It is interesting to note that in the discussion of the proposed canal the question of the relations between New Brunswick and the State of Maine

BANKRUPT'S PETITION FOR DISCHARGE
In the matter of
Leo E. Trappard. In Bankruptcy.

To the Hon. John A. Peters, Judge of the District Court of the United States for the Northern Division of the District of Maine.

LEO E. TRAPPARD of Houlton, in the County of Arctostook, and State of Maine, in said District, respectfully represents, that on the 27th day of October, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said Acts and of the orders of Court touching his bankruptcy.

Wherefore, He prays that he may be discharged by the Court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 6th day of October, A. D. 1923.

LEO E. TRAPPARD, Debtor.

came up. This is shown in another letter by Lieutenant Simmons to Sir William Colebrooke, in which he said: "The principal objection to the execution by private speculation of the canal at the Grand Falls is that, from its peculiar situation, being a spot in which the two countries, America and Great Britain, to whom the navigation of the river is common, are equally interested, it would seem to be likely to engender ill-will to have it exclusively possessed by British capitalists, who would thereby have the power seriously to affect the value of American produce transported on the river; and it would appear likewise injudicious to permit foreign capitalists to have any share or voice in a work constructed for the public benefit, and situated in a position of the utmost importance in a military point of view."

STATIC JUICE IN GAS TANK

Oil Concerns Take Steps To Protect Motorists From Explosions

Through the deaths of three motorists, all occurring within a week recently in widely separated parts of the country, attention of automotive engineers has been focused upon an odd but deadly peril in the gasoline tanks of automobiles. It is the danger of explosion and fire from the ignition of gasoline fumes by static electricity.

The tremendous scope of this newly discovered danger is described in the October issue of Popular Science Monthly, which asserts that gasoline, so carelessly handled in the garage and in the home, is more dangerous than dynamite. Many instances are cited of disastrous explosions caused by the accidental generation of static electricity where gasoline was stored. Wherever there is friction, it is said, static is likely to be produced. It is static that crackles in your hair when you apply a rubber comb in the wintertime. It is static that causes sparks to jump from your fingers when you touch a metal object or the handle of another after walking across a carpeted floor. Usually these sparks will do no harm; but, if generated where gasoline vapor has combined with the air in explosive proportion—above the gas tank of your car, or in any garage, service station, filling station, dry-cleaning establishment—in fact, anywhere where gasoline is used—static sparks may cause fearful fires and explosions.

A physician in the Middle West roused from his bed one night last winter by a patient's call, donned a fur-lined overcoat and rubber boots. He walked to his garage, and as he started to enter his automobile, there was a blinding flash and an explosion, and the machine burst into flames. The car was destroyed and the physician badly burned. Static electricity, generated by the rubbing of the fur of the coat against the rubber boots, was the cause of the fire. Electricity had been stored in the physician's body as he walked, and when his hand approached the metal body of the car, the charge was released, igniting the fumes that rose from the gas tank.

An automobile mechanic, working in a garage pit, caused a garage in the West to be destroyed when his wrench struck a bolt and caused a

tiny spark. Gasoline fumes in the pit were ignited, and the fire quickly spread to the rest of the building.

Gasoline rushing through a hose at a wayside filling station generates static, which passes through the metal nozzle into the metal parts of the automobile, where it is stored up, because the rubber tires insulate the automobile from the ground. Touching the car with any conductor of electricity will cause the static to be discharged. The hand of the attendant at the filling station or the hose nozzle as it is withdrawn from the tank may supply such a conductor. Many automobile fires and explosions have occurred under these circumstances. Fortunately accidents of this sort were attributed to back-fire from the motors, but those who have studied the question are now certain that the cause was static.

FORT GIBSON CENTENNIAL

Oklahoma is making plans for a great centennial celebration at old Fort Gibson, near Muskogee, where the first house in the state was erected 100 years ago by United States soldiers. The buildings are fast falling to decay, livestock roam over the site and few, even among Oklahomans, realize that Fort Gibson's history stands out unique and unusual. The present state Legislature will be asked for an appropriation to establish a park and preserve the ruins.

It was at Fort Gibson that Gen. Sam Houston, first president of the Texas republic, had his romance with Talahina, a beautiful Cherokee girl, who is buried there. It was from Fort Gibson that Jefferson Davis, afterward president of the southern confederacy, eloped with the daughter of Gen. Zachary Taylor, who became President of the United States. It was at old Fort Gibson that Henry W. Longfellow gathered much material for his famous "Evangeline." Washington Irving, Gen. George Custer, James M. Stanley, the painter, and many others of note frequented the fort.

Sam Houston, after winning fame and a wife at Tennessee, quit both to come westward to Fort Gibson, taking up a new and strange life with the Indians. He courted, won and married Talahina after he had accepted their manner of living. When he made love to her as a white man she spurned him, but when he paid his devotion as a Cherokee, she accepted him. Houston had been living with Chief Johnny Cake and Chief John Kelly, both Cherokees, hunting and fishing with them.

When Talahina agreed to share his wigwam, Houston left his tent, walked to that of Talahina's father, took the girl's hand and together they slowly and silently climbed to the top of a bluff overlooking the Arkansas river. There the two lovers stood, facing the setting sun and with eyes upturned to the Great Spirit, until the majestic prairie moon rose and flooded the valley with its light. It was a full moon, for Cherokee marriages take place only at such time. As the moon mounted higher in the heavens Houston, in war paint and feathers, claimed his bride and together again they walked down the hill to the tribe and tepees, where they were greeted with acclaim and a feast.

Houston came West in 1828 and he and Talahina lived happily until 1832, when the Tennessean could not resist the temptation to go on into Texas, then almost unknown. When he led and won the Texas war, for independence against Mexico, Houston sent back for his Indian wife, but she refused to leave her people. Her death took place in 1839 and she was buried near her cabin, but in 1904 the government interred her body in the national cemetery at Fort Gibson with elaborate ceremony.

Jefferson Davis came to Fort Gibson a dashing lieutenant, fresh from West Point. He fell in love at sight with Betty, daughter of Gen. Taylor, and wooed her ardently. Betty was anxious to marry Jefferson, but the general frowned upon the suit and when it was put to him, he stubbornly forbade the marriage. Therefore, Davis, for once disobeying the orders of his chief, eloped with Betty to Van Buren Ark., where they were married.

Longfellow visited the fort in 1845, while he was touring the frontier. He remained there several weeks, collecting data and making notes and as soon as he returned to the East he began writing "Evangeline."

Washington Irving had been at the fort several years previously, going there in 1832. He spent much of his time in a tent or near the fort, writing "The Tales of a Traveler" and "A Tour of the Prairies."

THE PRESIDENT'S FLAG

The President's flag, because it is seen only upon extraordinary occasions and because its design is of more recent adoption than our other flags, probably escapes recognition or arouses the curiosity of many who do see it, says a bulletin of the National Geographic Society.

The President's flag now flies over a Washington hotel which is temporarily the home of the chief executive and it was displayed on the President's automobile in the funeral procession of the late President Harding.

The flag now consists of the President's seal in bronze, upon a blue background, with a large white star in each corner. The design of this seal may be seen in the floor of the entrance corridor of the White House and was used by at least one President in his favorite stick-pin.

Usage Governing Display

The custom governing the uses of the President's flag and the history of its adoption are described in "Flags of the World" a compilation by Dr. Gilbert Grosvenor and Lieutenant-Commander Byron McCandless, U. S. N., as follows:

"When the President visits a vessel of the United States, the President's flag is broken at the main the moment he reaches the deck and is kept flying as long as he is on board.

"When the President is embarked on a boat he usually directs that his flag be displayed from the staff in the bow of his barge. When he passes in a boat flying his flag, vessels of the navy parade the full guard, four rifle salutes are given on the drum, four flourishes are sounded on the bugle, the National Anthem is played by the band, and officers and men salute.

"Previously there were two designs displayed on flags and on colors to be used in the presence of the Commander-in-Chief of the army and the navy. The navy design was of an earlier date than that of the army, and consisted of the coat-of-arms of the United States, as shown in the Great Seal, upon a blue ground. This happened to be almost identical with the infantry colors.

An Earlier Design

"The President's colors were designed to be distinctive from the infantry colors, and consisted of a blue ground with a large crimson star, outlined heavily with white. Within the star was to be seen the coat-of-arms of the United States, and outside the star with its angles were powdered small stars to the number of the States in the Union.

"The double display of flags and colors at the Grand Army Review in 1915 caused considerable comment, and as a result the suggestion was made to the President that the navy flag might fittingly be made distinctive from the infantry colors by the addition of four stars, one in each corner.

"The flags of an Admiral and a General bear four stars as a sign of command.

"The President approved of the idea, but directed that the coat-of-arms, as shown on the President's seal, be used upon the President's personal flag and colors."

AUTO DRIVERS SHOULD TAKE RIGID TESTS

A locomotive engineer must spend years as an engine wiper and fireman before he is permitted to drive an engine over a private right of way, but any person may drive an automobile down a public street used by millions of people with no experience whatever.

This comparison was used by William P. Rutledge, chief of Detroit police and president of the International Association of Chiefs of Police, as the explanation of his edict calling for rigid examinations of all applicants for motor car drivers' licenses, which are required under a state law. Enforcement of this law was urged in a resolution adopted at the recent convention of the International Association in Buffalo.

"It is time or the police departments of the country to take the initiative in such matters, without waiting to be prodded into activity by civic societies", Mr. Rutledge said.

Carrying out the spirit of the resolution, the Detroit police department is requiring each applicant for a driver's license to demonstrate that he is physically fit to drive a car; that he can read and understand traffic signals, and that he understands thoroughly all traffic ordinances. As a result of these examinations the police have found that only about a third of the applicants or licensees meet the requirements of a safe and sane driver.

It has been found necessary, Mr. Rutledge said, to establish police schools where prospective drivers of motor vehicles may learn how to handle a car. Classes are held two days a week, morning, afternoon and evening, and two lessons complete the course, after which the "students" may re-apply for licenses.

REINDEER KILLED BY VOLCANIC ASH

The government reindeer herd at Port Heiden, on Bristol Bay, has suffered recently because of volcanic ash from a peak to the westward which covered the feed range to a depth of about an inch and a half, according to advices received here. The ash, stirred by the hoofs of the reindeer, caused acute throat and lung trouble, and wore away the hair and skin from the lips, causing suffering and often death. All the herders suffered, and Fred R. Tait, government teacher, had a narrow escape from death. An attempt to move the herd across the Alaskan Peninsula finally was abandoned.

The reindeer herd placed by the government in the Broad Pass region last year has prospered remarkably. Eskimo and Indian herders have recently been engaged in car-marking the late crop of fawns and in erecting corals preparatory to the all round-up and count.

According to the herders, caribou will soon be entering the herd as the rutting season approaches. The caribou and deer cross freely and there are a number of cross breeds in the Broad Pass herd. When the deer were being driven from the Good News Bay District, along the tablelands of the Alaska Range, thousands of caribou migrating in an opposite direction were met. There was no alternative but to strike into the mass and some of the deer were lost, although the reindeer does reclaimed many.

The government herd at Alitak, on the south end of Kodiak Island, is reported to be thriving. The original

herd was given from Port Heiden to Chignik Bay, placed aboard the United States Coast Guard cutter Unalaga and landed at Alitak in 1921. Range conditions there are said to be almost ideal.

Completely "Missing" Engine

That a reputation is sometimes sufficient upon which to run a car, was proved to the entire satisfaction of E. A. Powers, head of the English department of the Chico State Teachers College, when the professor successfully ran his machine, a popular make for nearly half a mile before he noticed that the engine was "missing."

"And 'missing' literally," said Powers. "I thought that I had run over a boulder just before starting down a long grade," he continued, "and it was not until I endeavored to pick up speed at the bottom of the hill that I noticed anything was wrong."

Upon examination Powers found that the engine of the car had dropped out, and that the machine had evidently coasted down the hill.

Two of a Kind

Two Irishmen had just laid a wreath of flowers on a comrade's grave, and while crossing another section of the cemetery they saw a Jap lay some rice on the grave of a countryman.

One of the Irishmen asked, "When do you expect your friend to come and eat the rice?"

"When your friend comes to smell the flowers," was the quick reply.

NOTICE OF FORECLOSURE

Whereas Julia B. Plourde and Hilaire E. Plourde, both of Silver Ridge Plantation, county of Aroostook and State of Maine, by their mortgage deed dated June 17, 1919, and recorded in the Aroostook Registry of Deeds in Vol. 211, Page 558, conveyed to L. O. Ludwig and Nathaniel Tompkins a certain piece or parcel of land situated in said Silver Ridge Plantation, to wit: Lot numbered seventeen (17) in the Second Range of lots in Silver Ridge Plantation. Also a certain piece of lot numbered eighteen (18) in the Range aforesaid south of the road leading from the county road to the north line of said lot numbered seventeen (17), including said road on lot numbered eighteen (18). The premises thereby conveyed being the same premises conveyed to said Julia B. Plourde by Verdi Ludgate et als by their deed dated November 1, 1916, and recorded in said Registry in Vol. 292, Page 555, to which deed and the record thereof reference is had.

And whereas the said L. O. Ludwig and Nathaniel Tompkins by their assignment dated June 25, 1919, and recorded in said Registry in Vol. 283, Page 495, assigned said mortgage and the debt thereby secured to Houlton Savings Bank.

Now, therefore, the condition of said mortgage is broken, by reason whereof said Houlton Savings Bank claims a foreclosure of the same, and gives this notice for that purpose.

The weather has been ideal the past two weeks and many of the farmers have finished digging, there is some grain yet to be harvested.

Colin L. Wadla died at his home here on Monday the 8th, at the age of eighty years. Mr. Wadla was one of our oldest and respected citizens, having lived here all his life on the farm when he died. He was Custom house officer here for several years, also prominent in town affairs. He was also one of the few Civil War veterans, there being only four remaining now. He leaves a wife and three daughters, Grace, and Mrs. Vesta Bubar who lived with him, and Mrs. Archie Dill of Bangor, also four grandchildren to mourn their loss. Funeral services were held Wednesday in charge of the Masonic Lodge of Houlton.

BANKRUPTCY PETITION FOR DISCHARGE

In the matter of LEO E. TRAFFORD, Debtor.

Bankrupt. To the Hon. John A. Peters, Judge of the District Court of the United States for the District of Maine.

LEO E. TRAFFORD, of Houlton, in the County of Aroostook, and State of Maine, in said District, respectfully represents, that on the 27th day of October, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of Court touching his bankruptcy.

Wherefore, He prays that he may be decreed by the Court to a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 6th day of October, A. D. 1923.

LEO E. TRAFFORD, Debtor.

ORDER OF NOTICE THEREON. District of Maine, Northern Division, ss. On this 13th day of October, A. D. 1923, on reading the foregoing petition, it is Ordered by the Court, That a hearing be had upon the same on the 23rd day of October, A. D. 1923, before said Court at Bangor in said District, Northern Division at 10 o'clock in the forenoon; and that notice thereof be published in The Houlton Times, a newspaper printed in said District, Northern Division, and that all known creditors, and other persons having interest, may appear at the said time and place, and show cause, if any they have, why the prayer of said petition should not be granted.

And it is further Ordered by the Court, that the Clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the hand of John A. Peters, Judge of said Court, and the seal thereof, at Bangor, in the Northern Division of said District, on the 13th day of October, A. D. 1923.

ISABEL SHEETAN, Deputy Clerk.

A true copy of petition and order thereon Attest: ISABEL SHEETAN, Deputy Clerk.

The car was driven by a Mr. Wilson from Lakeville, N. B. He would not stop, but was over taken just as he was about to cross into N. B. A satisfactory settlement will no doubt be made.

DEVIL'S GRIP

Virginia, according to newspaper accounts has been suffering from an epidemic which some of the victims have called "Devil's Grip". It was reported that there had been 1,000 cases of the disease in that state with three deaths from it in Richmond. From the office of the State Department of Maine to the State Board of Health of Virginia, an inquiry was sent as to whether this disease with a new name was related to the well-known disease which goes under the name of influenza or grip. The reply which came was that it is not the same as influenza, but appears to be a definite entity.

A circular letter sent to the physicians in Virginia described the symptoms in brief as: "Acute onset with severe epigastric pain which may extend to one or both sides of the lower portion of the thorax; the pain is very severe and is increased by deep breathing; so respiration is shallow and rapid, rate forty to sixty per minute; an expiratory grunt is frequently observed; there is often tenderness among the attachment of the diaphragm; temperature usually rises promptly and rapidly to 102 or 104, pulse 80 to 100. Patient looks very ill; face is pinched or moderately cyanosed; about one-third of cases have nausea and vomiting; constipation is the rule; abdominal distention is usual with muscular rigidity. After four to twelve hours of severe pain and dyspepsia, the patient usually becomes more comfortable; occasionally pain lasts twenty-four hours. Temperature declines as pain lessens. Some cases have a recurrence of symptoms with decreased severity after an interval of twenty-four hours or more. No deaths are directly traceable to this disease. Children are more frequently attacked than adults."

TEMPLE

Week of Oct. 15, 1923

THURSDAY

CHARLES RAY in his latest picture "The Girl I Loved"

Taken from James Whitcomb Riley's beautiful story poem, "Take your girl to see 'The Girl I Loved'". This picture will astound even Charles Ray's most ardent admirers. Also two red comedy "Tolver Twisted" and Pathe Weekly Review

FRIDAY

DICK HATTON in "The Blood Test"

The blood test as the title implies fairly teems with thrills and suspense. Dark devil stunts are placed before Hatton to conquer and he comes up with colors flying. Miss Billie Bennett who plays one of the principal parts in Douglas Fairbanks' "Robin Hood" takes a praise worthy part in this picture. Also two red comedy "The Two Johns" and Weekly Pathe News.

SATURDAY

HELEN JEROME EDDY, JEROME PATRICK, JANE NAVOK and WILLIAM CONKLIN in

"The Other Woman"

Do you dress as well as the other woman? Which is his wife and which is the other woman? How two personalities dwell within one body! A situation strange as that set forth in Dr. Jekyll and Mr. Hyde. Also two red comedy "Newly Rich" and two red playlets, "Lonesome Sick"

MONDAY

CONRAD NAGLE, NITA NILDA and HOPE HAMPTON in

"Lawful Larceny"

TUESDAY

ELAINE HAMMERSTEIN, CLAIRE WINSOR and BERT LYTTEL in

"Rupert of Hentzau"

WEDNESDAY

ROY STEWART in "The Love Brand"
